REPORT ON LIFE AT CASE

CASE SCHOOL OF APPLIED SCIENCE
CLEVELAND, O.
1880

FINAL REPORT

This is the final report of the Class of '42, a summary of the highlights of their last and best year at Case. Though spent in a time of world upheaval and during an acute national emergency, the year was one including all the experiences that Case men recall time and time again as the years pass on. Each page of this living portrait is a tribute to the Case man's will to carry on and do his task for the greatest service to his country and self.

THE CASE DIFFERENTIAL
CASE SCHOOL OF APPLIED SCIENCE
CLEVELAND, OHIO

PRESCOTT S. COLE, EDITOR
WALTER F. MLYNKO, BUSINESS MANAGER

May 1, 1942

Dear Case:

To all those who by their participation in life at Case...who by their efforts and accomplishments complete another chapter in its history...and to those who have labored in compiling and publishing this report, the editor says "thank you".

The fabric of this account is woven from many threads of work and play...the weavers have been numerous.

May this report give pleasure now and in reminiscent moments to come.

Cordially yours,
Prescott S. Cole
Your editor.

PREXY

WILLIAM E. WICKENDEN
President

President W. E. Wickenden is a figure of national and local importance, recognized as a progressive engineering educator, public speaker, and writer . . . frequently called into public service by local and federal officials.

Prexy backs all college sports and other extra-curricular activities . . . is always promoting the best interests of Case in every respect.

DEAN

Theodore M. Focke

The spirit of Case personified . . . Dean Focke has remained with us through the years as the "prime mover" of Case activities and ambitions.

Through wars, depressions, happy times, and poor grades, "Teddy" Focke has tied together the departmental groups and classes into this organization called Case.

Theodore Focke . . . Case '92 . . . Dean of the Faculty . . . Class schedule maker . . . Fair, square, hard-hitter . . . Kerr Professor of mathematics . . . is a friend of every Case man.

ASS'T

Lawrence W. Mills

Larry Mills, Assistant Dean . . . friend of bewildered freshmen . . . ardent football supporter . . . a true friend of all Case men.

Larry always turns a sympathetic ear to any student's problems.

Since 1928, when he came to Case as a teacher of history, he has steadily gained in student esteem . . . this year he resumed part-time teaching duties, previously crowded out by his many activities as freshman advisor and student-loan fund director.

W. Griffin King

TREASURER

Mr. W. Griffin King . . . engineer and financial expert with wide and varied experience . . . came to Case as college treasurer in October, 1941. He is an alumnus of Cornell University . . . mechanical engineer . . . with additional studies at M. I. T. and with business training through production and sales engineering and his connection with the Cleveland brokerage firm of **Murfey, Blossom, Morris and Company** (1927-1941).

Fred A. Pierce

PLACEMENT DIRECTOR

"Any jobs today?"

"Yes!" is Mr. Fred Pierce's answer to any senior or undergrad who might be asking.

Last year . . . his first as placement director at Case . . . he placed all the Class of '41 in record time. He's also the man to see with your draft problem.

As you can plainly see, he's a very busy man.

Willard E. Nudd

REGISTRAR

His warm smile and pleasing voice create a friendly atmosphere . . . new students are fortunate to make their first contact with Case through Professor Nudd. The genial registrar devotes part of his time to teaching as Associate Professor of engineering drawing. Curious about his accent?—he's from New Hampshire.

Charles F. Chapman

ALUMNI SECRETARY

To any Case man, the name "Chappie" brings a picture of our friendly Alumni Secretary . . . always with a warm greeting for any student or alumnus. Charles F. Chapman is busy with his task of keeping in contact with Case alumni everywhere . . . and of publishing our fine Case Alumnus.

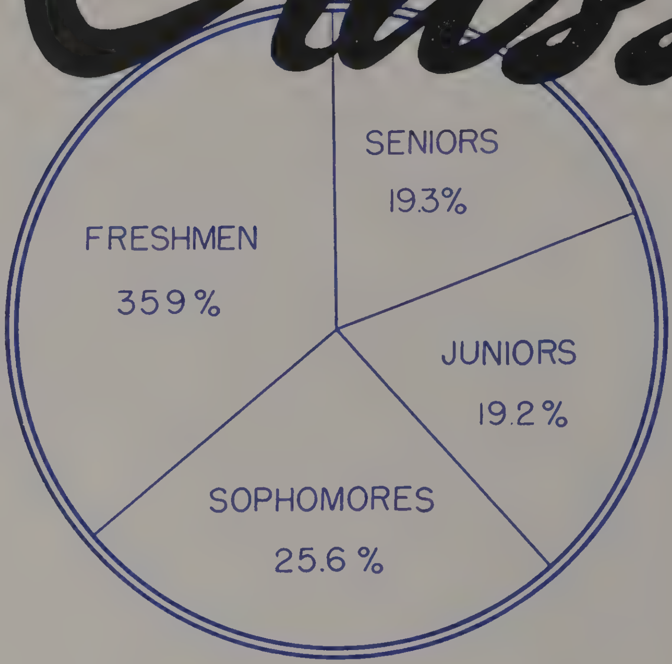
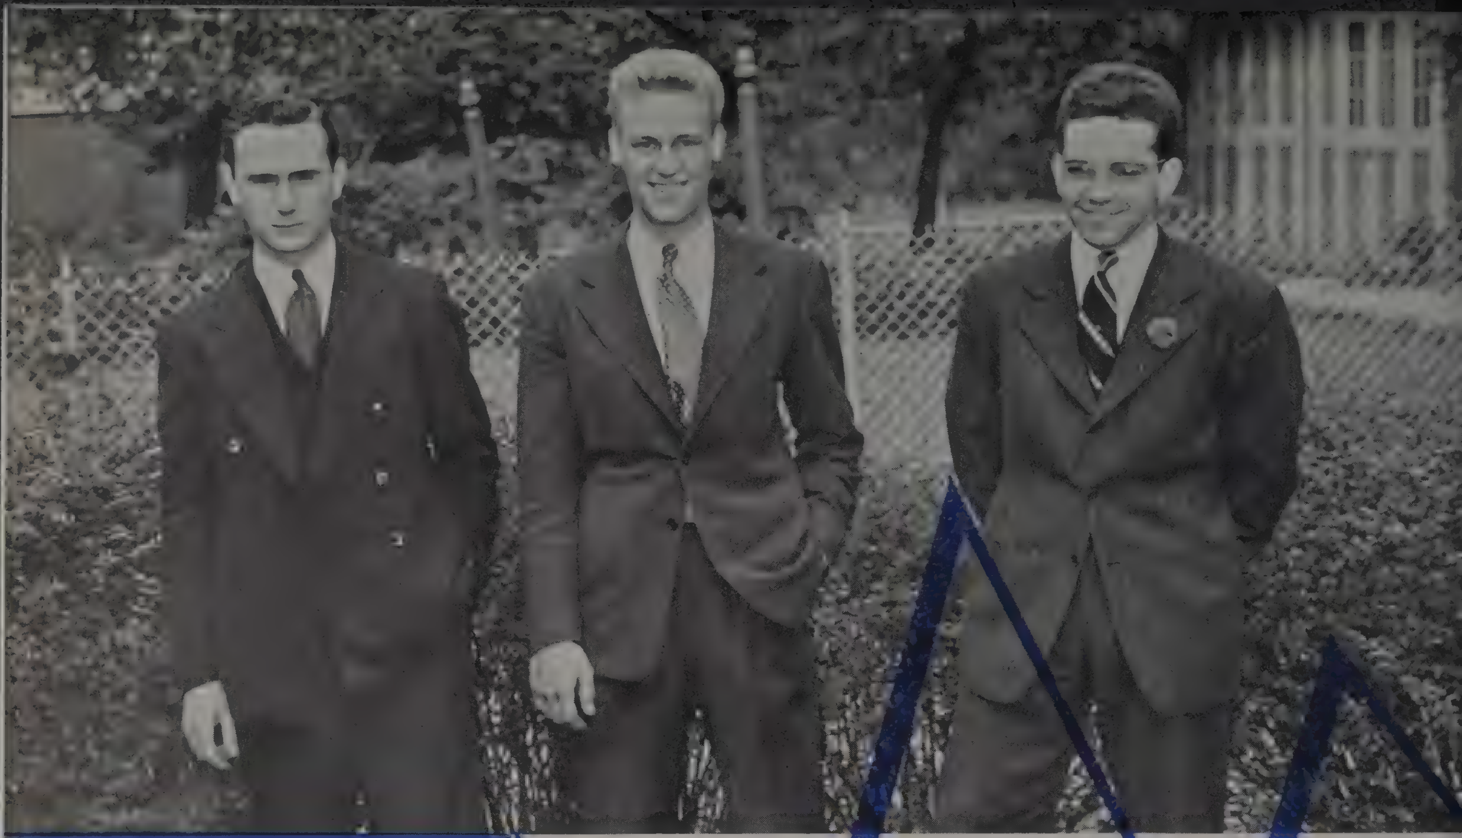
Standing: Sima, Sharer, Kyr.
Seated: Owens, Blankenburg, Cheney, Dudley.

Classes



Behind all college activities are the personalities that made their success possible. One of the strongest bonds between Case men is their class, a group with common experiences. Here are presented those personalities, as they spend their college years, shoulder to shoulder with the members of their classes.

Sherman
and
Hardy



SENIOR OFFICERS

F. C. Herot
Secretary-Treasurer

D. R. Nusbaum
President

D. J. Redmond
Vice President

SENIOR CLASS

Four long years of hard study . . . four years of enjoyable activities . . . four short years of the beginnings of life-long friendships and pleasant associations—these are the experiences which the seniors will long remember as they leave the portals of Case.

They are now men ready to meet the ever-increasing problems of living . . . Case men who will help in the leadership of their communities and in the National Defense effort . . . both in the service of Uncle Sam, and in private industry.

These men will not forget where they spent those precious four years. And long afterwards they will be saying to young Case men and others—"Yes, I'm a Case man—class of '42."

SENIORS

SENIORS

From our reviewing stand we have witnessed the parade of men who are destined to be among the vital factors in our eventual victory. These graduating seniors on the preceding pages will take their places in the ranks in many fields . . . all of which are integral parts of our vast, complicated war machine. Some of these men will enter directly into Uncle Sam's huge army and with their broad, extensive training will be invaluable in many phases of military science . . . as technical experts, as instructors, as strategists, as officers—yes, and even as khaki-clad privates.

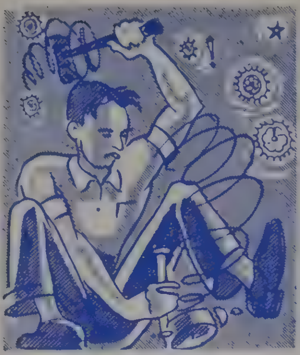
Probably the greater number of these Case graduates of 1942 will enter into another combat line of equal importance in the conduct of this war. It will be their task to see that the hungry breeches of our many guns have a constant supply of bullets . . . that the sky over every battlefield is commanded by American planes . . . and that "Private Johnny" is properly equipped in any of his engagements.

To do this means that every productive unit in this country must be guided by the finest technical minds available. Case has bent every effort to make these graduates fit this difficult assignment.

In still another role has Case proven invaluable in the training of men vital to our nation at war. Under Professor Clyde A. McKeeman, the Defense Training Program directed by Case has trained over two thousand workers in the war industries to become more skillful and intelligent in every job . . . producing the goods that will win the war. As Director of Defense Training at the college for little over a year, Professor McKeeman has already organized over twenty courses taught on this campus in the evenings. Also under his wing are the many similar courses taught in five extension centers.

Professor McKeeman is also chairman of the Evening Division and Professor of Mechanical Engineering. Having dropped all his teaching duties, he is now devoting all his time to night work at Case . . . work that will add immeasurably to the productive capacity of Cleveland . . .the heart of our war industries.

Professor Clyde A. McKeeman
Director of Defense
Training Program



Junior officers, Kessler, Malin, and Leachman looking at ease on the sacred Senior Sun Dial.

Brodie watches his apparatus; Sweet watches the photographer.

Hamilton, Albright, and Hacker—What's the tensile strength fellows?

Trudeau, are Schuster's hands cold?

What's that secretary doing in the lab, Sandborn, Grow, Herr?

Harris comes for the picture . . . Weeks and Richards care more about their experimental results.

Mlakar takes data, Zakrajsek reads the meter, Mlynko slips the calculations.

JUNIORS

J U N I O R S

Keidel, take your hand out. Price better watch Messner, his hand is in there too.

Climo acts as a leaning post for Smail. Nassau, you're not working either.

Garman turns the wheel and makes faces; Panek and Nyerges wish they had a wheel too.

Harris and Symes read the meters; Richmond sits . . . and takes data.

Happy-go-lucky athletes; Keto cracks wise, Forbes is disgusted, Callaghan ignores it.

Bachtell and Kraus, those meters bear watching.

Hacker doesn't care for the results, Martin rechecks, Isheim learns a few new ones.

JUNIORS

Visconty tunes in, Workman looks in, Wright listens in.

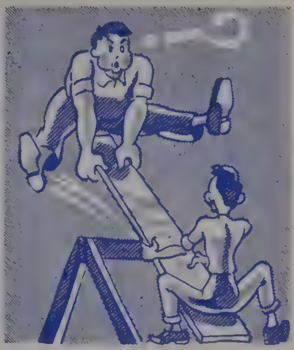
Landusky applies the pressure, Johns the pencil, Wilcox the presence.

Roth, when did you start that mustache? Herron proceeds with the crushing.

Carroll wants to know how long that pencil will stay behind Cavdek's ear.

Waters and MacMeans make connections.

Russell rests, Willison watches, Kostir hides.



R. Schafer, Cole, and Angus, you can't screen those boulders.

Morgan, a big operator; Smith, a modern Venus; Winship in another world.

"Handless" Hann, "Apron" Prior, and "Titrator" Brehm hard at work.

Black applies the strong arm to the crank while Krall and Berger "make" the results.

Kessler flashes that "profile smile," as Hart and Bopp get out the chemicals.

Real concentration—as exhibited by Jasbeck, Rubensaal, and Poole.

JUNIORS

Skiba and Jones loafing as usual.

Stock waits on his knees for Brewer to throw the dice.

Radefeld applies the torque while Linn wonders why.

The three civils, Heppert, Sowers, and Poffenberger, glow happily as they lean on the old brass rail again.

L. Schafer seems happy over the loss of his left hand, while Schnetzler tries to figure out a way of recording the phenomenom.

Parma offers friendly advice as Gutkowski works another crossword puzzle. Bartlett looks bewildered at the gages.

King and Brown interrupt a test long enough to gaze for the photographer.

JUNIORS

JUNIORS

Kern, McLean, Brownsword—at work on their gin mill.

Jackson, Krickenberger—wonder how to put a permanent press in their pants.

Cooper offers advice while Cloumas mans a fire extinguisher.

Citron and Schum—the two personality kids.

McIntyre and Kampman—two sidewalk engineers.

Hubbell, W. Thompson, Shortt—just posing.

Lamprecht and Armington stand by while the pressure goes by the danger point.

JUNIORS

Niederhauser operates as Charlton directs and Artner applies the pressure.

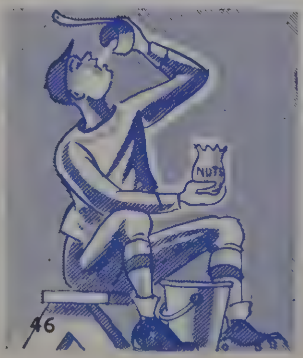
Beeney smirks studiously as Clarke tells him all about it.

McAdam dictates, Helwig writes, and Wheye looks as if caught in the act.

Bathtub gin by Toole as Bohanek admires.

Reinker watches the gage, Sanabor watches the birdie and Koch performs.

Chefs Wischmeyer and Vokoun cook up something tasty in Sanitary lab.



Stokes and Humiston looking for a way to repeal the law of gravitation.

Tinstman draws a picture while Louis and Leachman study the art of sparking.

Haas thinks of his lost flame while Krause ignites one.

Little and Hudimac put the finishing touches on their egg beater.

Marshall and Nelson on the trail of the 99th element.

Hartman and Ruzicka listen as Schunemann tells a story about a well known salesman.

"King" Zamboky and loyal follower, Morse, work on their automatic baloney slicer.

JUNIORS

M. Luoma, Billens, and D. Thompson listen in on the ball game as the prof steps out of the room.

"Captain" Kramer smiles as E. Luoma handles the tiller and Reid parks on the rail.

Predota draws a brew as Knill smiles at the waitress.

Anderson drops one over the net as Lloyd illustrates the correct tennis grip.

Colberg watches Shergalis flip it into high.

Stannard gives that bored camera look, but Pavilonis is more interested in the experiment.

Nielson has that "take it off" look in his eye, but Tatman and Pritchard yearn for the higher things in life.

JUNIORS

JUNIORS

Quigley and Groszmann laugh as they start to dismantle machinery.

Boman looks wise, as Wise just looks.

Watters sneaks into the picture, as Lehto and May figure out how to fill the radiator.

Pinns slaves under Doc Shelton as Haas sneaks into another picture.

Fletcher and Vaccaro watch Atwater do all the work.

Stickney, Meyer, and Machuta stand around waiting for something to happen.

Hankes and Redmond hold a generator together as they push their faces at the camera.

Rare picture of sophomore class officers sitting quietly on a bench . . . Vice President—big Dick Gerhan, football player and campus sparkplug . . . President—quiet, capable Joe Rhoads . . . and Secretary-Treasurer — Bill Mau, light fast intramural basketball man.

Fourth Row: Van Beneden, Carter, Wittmer, Neel, Jirus, Stoeckel, Horn, Mau, Wolfs, Anderson.

The varied horde of freshmen who invaded Case over a year ago has started to make a name for itself as the class of '44. The freshman year knocked off most of the rough edges and ironed out the intellectual differences of the largest Case freshman class in many years. Living and working together at spring surveying camp knitted the class into a strongly spirited unit.

In college activities and athletics the sophomores have taken an active interest . . . in football, basketball, track, and fencing, and have helped the Rough Riders to a good year . . . and in band, glee club, publication staffs, intramural organizations, and social fraternities, the class of '44 developed into an integral part of Case. Each man began the year in a new course of study . . . electrical, mechanical, chemical, civil . . . which ever he chose as most suited to his plans. With the future in mind, these boys are going ahead in a determined effort to make the most of an engineering education.

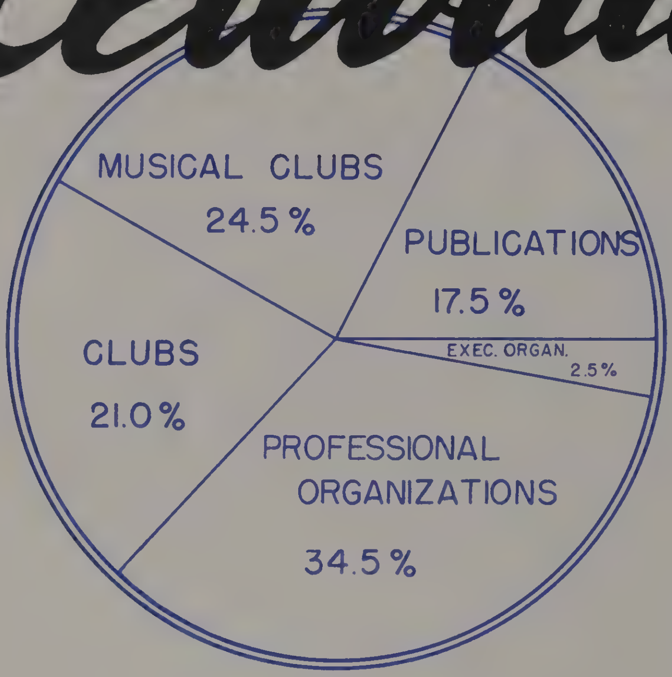
Thirteenth Row: Unkrich, Klein, Fisch, Rubin, Majewski, Sienkewicz.

On September 15, 1941, a motley group of high-school grads became full-fledged college men—Case men at that! Bewildered a bit at first by a combination of freedom and discipline new to most of them, they soon fell in step and took their place in campus activity. Class spirit was born as the group triumphed in the Bag Rush and successfully stood the trial by fire of freshman education.

The freshmen made their presence felt by active participation in campus activities, proving the versatility that their past records had predicted. Then came the climax to intensive study, their first real finals. Class spirit was proved to the rest of the college by the freshman dance, a new event on the Case calendar. Now as the year draws to a close, the usual anxiety about the future is felt by all, temporarily overshadowing pleasant memories of a year of many varied accomplishments.

FRESHMEN

Activities



Education after 4 p. m. plays a large part in the development of the well-rounded college man. Void of textbooks and formulas the many campus extra-curricular activities provide business as well as social contacts for the student participants.

Sherman and Hardy

SENATE

Case's official student governing body . . . the Senate . . . was created to serve as a link between the faculty and the students . . . to iron out some of the misunderstandings that occur between them. Acting as campus moderator, the Case Senate is one of the most important organizations on the campus.

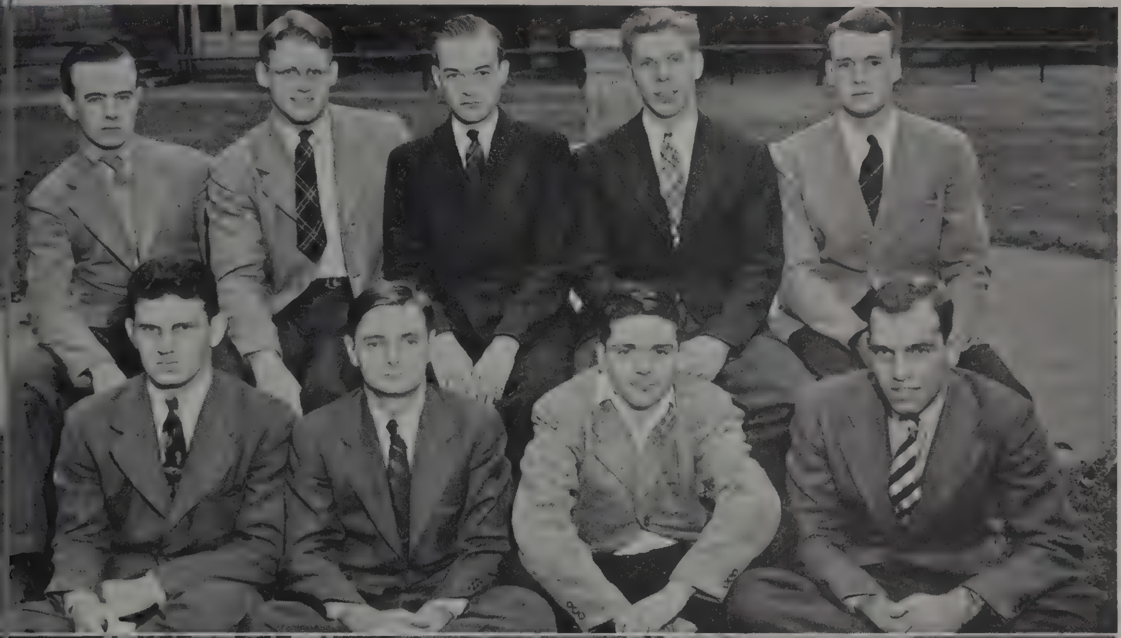
The Senators determine honor points . . . award honor keys . . . manage class and school elections . . . and regulate all campus activities. Eleven members elected by the popular vote of their own classes make up this body . . . which has Dean Larry Mills as faculty adviser.

"Gentlemen need no rules" . . . is the motto of the Case Board of Managers. The Board's purpose is to promote social functions at the Case Club . . . the Junior Prom . . . freshman smokers . . . and post-game dances. Faculty adviser, Harry Churchill, and the six student members also act as the governing body for the Case Club. Tryouts for the Board methodically comb the student body to sell tickets . . . elections to the Board are based on number of tickets each tryout sells and on his scholastic record.

BOARD OF MANAGERS

SENATE

Front Row: Killian, Wright, Vaccaro, Heppert.
Back Row: Haig, Baty, Martin, Furrer, Bressler.



Cole, Buettell, Prof. Churchill, Louis, Wright.

BOARD OF MANAGERS

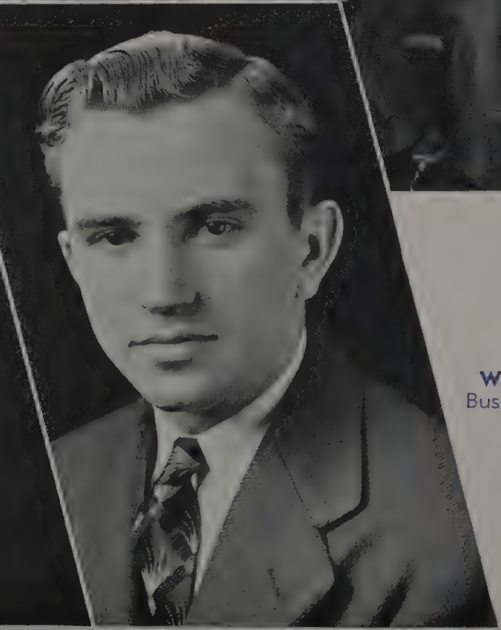
THE 1942

Are you enjoying the 1942 Differential? If so, it is largely the result of hard work by the editorial staff. Saturday morning work sessions . . . interviews . . . writings . . . and assembly of pages, were the tasks of these budding journalists.

Hard work . . . an informal dance and party . . . happy associations and enjoyable experiences fitted together to produce pleasant memories for the staff of the Case Differential. Faculty manager is Professor Geo. E. Mills.

First Row: Mlynko, Prof. Mills, McLarty.
Second Row: Pollock, Black, Baley, Pierce, Cherry.
Third Row: Keeler, Murray, Ellis, Fingerhut, Hill, Schwarz.

Prescott Cole
Editor



Walter Mlynko
Business Manager

DIFFERENTIAL

Walter Mlynko, business manager, led the way . . . McLarty and the rest of the staff continued the pressure. The pressure on whom? Why, on prospective advertisers for the 1942 Differential. It was a successful encounter and the Business Staff deserves a great deal of credit for the financial operations of this year's Differential. Mixing it up with the Editorial Staff in several social events of combined Differential workers provided enjoyment and fellowship necessary in the life of a well-rounded man.

First Row: Panek, Olson, Harris, Schrenk, Long.
Second Row: Nassau, Smail, P. Cole, Snow, Schunemann.
Third Row: Richmond, G. Cole, Bletcher, Neville, Noyes, Moesta, Martin, Schill, Parsons, Owen, Quigley.

Seated: Wennes, Roth, Leachman, Climo, Vaccaro.

Standing: Rubin, Cavdek, Lewis, Hagan, Schwarz, Brown, Barrett, Keidel

THE CASE

Our newspaper scores again . . . placing second among all Ohio College weeklies. With I. A. Greenwood at the editor's desk, the **Tech** forms an important bond between activities and departments on the campus . . . It also gives recognition to accomplishments of faculty and students, while the informal life at Case comes in for due attention. The **Tech** stood out in a social way this year . . . sponsoring a dance for the staff of all the publications. This dance went a long way toward strengthening the ties between the various publications.

I. A. Greenwood
Editor

S. F. Frensdorf
Business Manager

Standing: Harris, Lewis, Krall, McLarty, Nassau.
Seated: Higgs, Nielson, Frensdorf.

An efficient business . . . headed by Stuart Frensdorf . . . presented many innovations such as the advertising scheme used in the eight-page Thanksgiving issue. Close cooperation between the business and editorial staff enabled the Case **Tech** to rank at the top in competition with the best of college publications.

T E C H

Seated: Prof. Thompson, Smallwood, Winship, Greenwood, Noyes.
Standing: Schrenk, Quigley, Woltz, Rubin, Brehm, Kostir, Sofios, Sowers, Symes.

Seated: Richmond, Vaccaro, Roth, Owen, Heinmiller, Cole.
Standing: Panek, Krebs, Doyle, Seitz, Wennes, Fingerhut, H. Young, Pinns.

Faculty supervision is under Professor K. O. Thompson, editorial adviser and Professor Brooks Earnest, faculty manager.

ALUMNUS

Back Row: Mr. Chapman, Wennes, Schabo, Van Arsdale, Nassau.
Front Row: Umbenhour, Nusbaum, Rubin.

Seated: Willison, Rubin, Linn, Rapp, Marshall, Prof. Young.
Standing: Ross, Symes, Sofios, Larson, Kane, Stern.

NEWS SERVICE

ALUMNUS

Case graduates . . . no matter where they live . . . are interested in the affairs and activities of their Alma Mater. It's the purpose of the **Alumnus** to tell them of the activities of the faculty and undergraduates and to keep them in touch with other alumni all over the world.

C. F. Chapman . . . the alumni secretary . . . is in charge of publications . . . with much of the work done by a student editorial staff headed by Dave Nusbaum. The Alumnus has been awarded a prize of excellence by the American Alumni Council for the past several years.

Covering campus activities . . . sports write-ups . . . bulletin board schedules . . . news releases for daily papers . . . the Case News Service keeps the outside world informed on the activities at Case.

The bulletin board on newspaper clippings concerning Case is kept up by this active group of men. News of undergraduate and faculty activities issues from this office to be distributed to local and home-town newspapers for publication. Standing at the helm of the News Service this year are Professor H. R. Young, Faculty Manager, and Student Director Ed Rapp.

NEWS SERVICE

BOARD OF PUBLICATIONS

"On our shoulders rests the responsibility of determining the policies of the Case publications—Tech, Differential, Alumnus, and News Service. Today, we meet to select the editors of the campus publications for next year . . . your decisions, of course, are to be based entirely on merit."

Thus spoke "Chappie," Case Alumni Secretary and chairman of the Publications Board, addressing the faculty advisers and student publication heads.

Each candidate for a staff appears before the board . . . outlines his qualifications and ideas . . . and is questioned by the board members. The editors and business managers are then chosen by ballot on the basis of this interview and two rating sheets which the outgoing heads have prepared.

A new name on the campus is that of Lambda Rho Epsilon . . . formed this year to join, for administrative purposes, the new Speakers' Bureau and the Debate Club. This group has been growing in strength under the guidance of George B. Sowers, student director, and Mr. W. E. Umbach, faculty adviser. The Speakers' Bureau furnishes student speakers for many local groups . . . the Debate Club participates in a full season of intercollegiate debating.

Many letters of thanks and requests for future speakers are received by the Speakers' Bureau . . . Case debate teams have made a good record in tournament competition . . . proving the excellence of this organization. Full recognition has been granted to Lambda Rho Epsilon by the Case Senate this year.

SPEAKERS' BUREAU

BOARD OF PUBLICATIONS

Seated: Prof. Thompson, Prof. Young, Prof. Earnest, Prof. Mills.
Standing: Cole, Frensdorf, Nusbaum, Rapp, Mlynko, Greenwood.

Third Row: Pavilonis, Nafziger, J. Bazely, MacIntyre, Swartwout, Gruener, Limbeson, A. Bazely.

SPEAKERS' BUREAU

MUSIC

Allyn Colen
Drum Major

Our Glee Club, the oldest musical organization at Case, has grown up with the school. Beginning as a double quartet back in the 80's, it has increased to its present size of ninety men. "Besides having quantity the Case Glee Club has quality," claimed George F. Strickling when he said that it could make a good showing against any other college glee club in Ohio.

"The Best Band in the Big Four" was the title given to "Casey's" marching band by several writers in Cleveland newspapers. It had an important part in creating that Case spirit so evident at all the football games. Conversion of the clear outdoor style of playing into softer symphonic style for concert work at the end of the season was a success.

The orchestra made up of "Casey Engineers" plays a big folio of music. Evidence of this was shown at the Home Concert, where it held its own along with its older brothers . . . the band and glee club. All three organizations helped Richard P. Frohmberg, musical clubs manager, Director Strickling, and George W. Sanford, faculty manager, make the concert a memorable occasion.

BAND

Marching replicas of tanks . . . anchors . . . battleships . . . and dogs, combined with quality music, did much towards earning the Case marching band's title of "Best in the Big Four" this year. These musical engineers entertained the crowd at all the home games and at several away-from-home encounters. Six-year-old Betsy Strickling, the sweetheart of the band, strutted beside drum majors Rus Nyerges and Allyn Colen in front of the 78-piece band . . . the largest in the college history. Swiss flag throwers—the first in this part of the country—appeared with the band. Director G. F. Strickling and Student Manager Don Thompson did a fine job. Dr. G. W. Sanford is faculty manager.

LEFT TO RIGHT

First Row: Humiston, Anthony, Roberts, Deuring, Frohmberg, Hubbell, Bazeley, Baietti, Alden, Wischmeyer, Barrett, Weinkamer.

Row 1-A, Trumpets: Black, Krauter, Garman, Brehm, Sowers.

Second Row: Wittmer, Portman, Krause, Schultz, Leeds, Thompson, Elliott, Creager, Cox, Winship, Pritchard, Schweitzer, Adams, Schmitt, Perge, Blackman, Toole, Moorehouse, Sharp, G. Cole, Breneman, Kibbel, Armington.

Third Row: Visconty, Leiss, Schaefer, MacIntyre, Bolling, Ziegler, Hunt, Richards, Reinberger, Doncyson, Harrison, Blouch, Snell, Nielson, Queer, Sebesta, Bowman, Davis, Schafer, Wagner, Herot, G. F. Strickling—Director.

ORCHESTRA

"What time's rehearsal?", demands "Strick" as one of the boys sheepishly makes a belated appearance to Glee Club practice. Always a popular activity . . . serving as a sort of safety valve for hard working Case men . . . the Glee Club has been a source of pleasant memories for many students.

Frequent outside appearances were made during the past year . . . at the Dairymen's Association Convention . . . during Christmas vacation at Halle Brothers . . . Home Concert in the Spring . . . and at get-to-gethers with the glee clubs of Lake Erie College and Mather. The able hand of "It's fun to sing soft, fellows" Redmond directed the Tuesday night practice sessions when "Strick" was absent.

GLEE CLUB

New heat source overlooked by scientists . . . finding their rehearsal quarters like an igloo one Thursday afternoon, Casey's orchestra members whipped through their selections for the Home Concert with sufficient gusto to give the atmosphere a rosy glow. Although steam does a pretty fair job of heating, the heart-warming induced by the orchestra in the Home Concert is longer remembered by Case men than the calorific properties of water vapor.

This versatile group of engineers, guided by genial G. F. "Strick" Strickling, spends the greater part of the year orchestrating and rehearsing selections to be presented at the Home Concert, Honor Day, and Commencement.

CAMPUS CLUB

Late in 1938, an organization strictly for non-fraternity men was formed and named the Campus Club . . . membership was opened to the student body. The club was designed to give students on the campus who had no connections with the fraternities a chance at social, cultural, and athletic activities of which they might otherwise be deprived.

This purpose has been fulfilled . . . the club enters into all intramural activities including athletics. It offers its members many inter-club functions and sponsors affairs open to the student body . . . including an annual smoker for all freshmen. Under its prexy, George Bressler, it has gained for itself campus recognition on a par with the fraternities. Professor R. R. Slaymaker is faculty adviser.

Objectives of the A.S.M.E. are to promote mechanical engineering in all of its forms . . . to encourage training in mechanical sciences . . . and to stimulate original research.

In working toward these objectives, the Case chapter of the American Society of Mechanical Engineers has built one of the largest engineering groups on the campus. Outside speakers from industry . . . movies on pertinent topics . . . and technical papers help to keep student members informed about their chosen profession. Ed Hudec was the student chairman for the year, and Professor Slaymaker, faculty advisor.

A. S. M. E.

PICK AND SHOVEL CLUB

Knowledge . . . experience . . . pleasant associations . . . profitable contacts . . . all these are privileges which Case metallurgists, as members of the Pick and Shovel Club, enjoy. Membership is optional to all those in the metallurgy department, the only requirement being subscription to one of two technical publications and a short but strenuous initiation.

Pick and Shovel Club . . . for its purpose . . . strives to unify the undergraduate metallurgists and acquaint them with the department. It maintains a club room in the department building where members are free to spend their spare time in relaxation. The organization gave Christmas gifts to several faculty friends. Notable among the gifts were a mirror for "Tommy" Graham and a junior G-man set for "Doc" Donaldson. Pick and Shovel closed the year with a Spring picnic.

"We're the kind of a gang that loses the copy of its constitution and gets happy over it." . . . "Ive" Greenwood, senior physicist, explains in a nutshell the carefree, informal spirit of the physicists' Lambda Club.

Its main purpose is to bring the "profs" and undergrads closer together. Activities of the club include dinner meetings and other social affairs. An annual party is given by Doctors Nassau and Shankland at the observatory. Dr. L. O. Olsen is the faculty sponsor of this organization.

A. S. C. E.

A. I. E. E.

"Fuse Blower's Balls" form but part of the informal life of these enterprising electricals, banded together in the student chapter of the American Institute of Electrical Engineers. Valuable contacts . . . engineering knowledge are made available to these students by their frequent meetings with the Cleveland section of the A.I.E.E. Under Prexy Jim Cross, this organization has worked steadily to further education and fellowship among electrical students at Case.

Eighty-nine years old and still one of the strongest of all professional organizations . . . the American Society of Civil Engineers serves as a bond between all of its student members at Case. This year the group finished its season of business and social gatherings by playing host to the North Central Conference of student chapters. Bob Clark served as president during the year . . . In fact he was national president of the organization. Professor Barnes is the advisor of the Case group.

A. S. C. E.

A. I. CH. E.

Test-tube engineers turn out for good times when the A.I.Ch.E. holds its social gatherings. Smokers . . . hay rides . . . dinner meetings . . . and prominent outside speakers make up the functions of this chemist group. The Christmas party was the main event of the year.

This student chapter of the American Institute of Chemical Engineers has a dual purpose . . . furthering extra-curricular interest in chemistry . . . building a better fellowship among the students and faculty. Membership now numbers almost fifty upper-classmen in chemical engineering. The organization is headed by president Clayton Reubensaal and ably guided and advised by Dr. Prutton.

Meetings dealing with road construction . . . fitted in with actual classroom work on the subject . . . are held often by this student group of the American Road Builders Association. The Case A.R.B.A. organization saw its birth five years ago as a result of the work of students interested in construction and sales engineering, and it is now a strong civil engineering society. Professor Douglas is the supervisor of the organization. The group chose Bill Frerich as the president for the year.

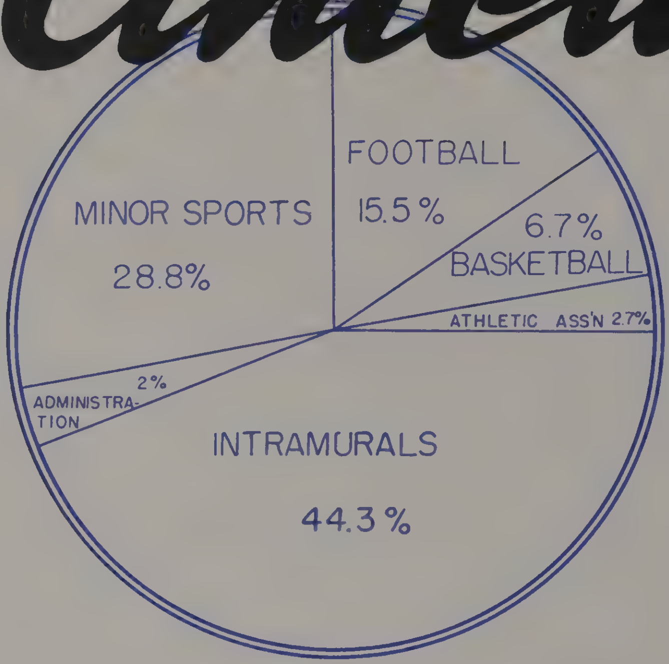
Athletics



Athletics play an important part in the lives of Case men.

The various varsity squads held out intercollegiate sports at a high level . . . competition in intramurals was keen. Success in all sports shows that Case produces men as well as engineers.

41

COACHES

For twelve years Ray Ride and Jeff Carlin have worked together at Case . . . turning out top-notch teams.

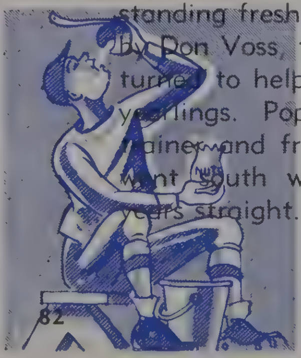
Ray Ride brought not only the name "Rough Riders" to Case but also the fighting spirit. Ray supervises all other intercollegiate sports.

Besides playing a big part in Case grid history, Jeff has coached basketball teams which have won the Big Four title once and tied for it twice.

Claude Sharer . . . Case's track coach for the past twelve years . . . gained coaching experience at Bucyrus High and Ohio Northern University. Claude added wrestling, his boyhood hobby, to Case's sports roster in 1927.

Harry Kyr came to Case in 1936 as varsity swimming coach . . . he has turned out many good teams including the Ohio Conference champs of '37 . . . our strong intramural program is the result of Harry's hard work as Intramural Director.

Alumnus Stan Allmen . . . stellar lineman a few seasons back . . . coached an outstanding freshman squad this year assisted by Don Voss, three year letterman who returned to help develop a rugged squad of yearlings. Popular Doc Rees . . . regular trainer and friend of all varsity men . . . went south with scholastic all-stars two years straight.



ATHLETIC ASSOCIATION

"The importance of intercollegiate athletics at Case today may be emphasized by the rapid growth of the Athletic Association since it was started over forty years ago," answered Professor Eddy, Athletic Association head, when asked about athletics at Case.

"Theoretically, every student who pays an activity fee, for which he receives his gym card becomes a member of the Athletic Association. However, the acting organization is composed of a faculty board which determines the policy of the Association and ten seniors whose job is to sell tickets at athletic events. Our main job is to keep track of the accounts of the various teams."

"Student members are selected on the basis of their tryouts during the junior year. Juniors take tickets . . . run the gates . . . help with ushering, while the seniors operate the ticket booths."

Seated: Greenwood, Prof. Eddy, Prof, Putnam, Nicolaisen.

Standing: Killian, Johnson, Sherlock, Webb, Baird, Kempf.

FOOTBALL

TAYLOR

YURCHESHEN

MELREIT

KONKER

GREENLEAF

Best season since 1905! Piling up a record of seven wins and only one defeat, the Case Rough Riders completed their third best year in Case Football history.

Scintillating in this year's galaxy of stars are such names as Melreit, Yurcheshen, Konker, Taylor, Stoll, and Greenleaf. Bob Melreit—crashing fullback—demonstrated his effectiveness on many occasions. Bearing the brunt of most of the ground play, "Moose" covered himself with glory. The Lakewood gridder was selected on the All-Big-Four and All-Ohio teams.

On the receiving end of the Konker-to-Yurchesen pass threat was Mike Yurchesen—always a threat—scored the only Scientist touchdown in the Turkey-Day tragedy. Besides being picked for All-Big-Four and All-Ohio for the second consecutive time, Yurchesen was also named to the much coveted Little All-American team.

Glen Konker—quarterback and passer de luxe. Konker was undoubtedly the best spot passer in the Big-Four and one of the smartest field generals in Ohio collegiate competition. Whenever the Case running attack got bogged down, Konker would start filling the air with passes . . . usually connecting with a surprisingly large number of them.

Don Taylor—right guard and field captain—earned himself the title of "fifth" man in the opponent's backfield." Don—a Tau Bete—used his noodle on the football field as well as in the classroom and broke up many plays before the opposition got started.

Bill Bennett—shifty back—capably demonstrated the art of deceptive broken field running. He suffered an injury in the Baldwin-Wallace fracas, this depriving Bill of his greatest wish—to help beat Reserve. Had Bennett been in there, the story of Thanksgiving Day might have been a little different.

COPLAND

STOLL

BENNETT

Irv Copland—back—is a three year veteran. Irv has played consistently good ball and has added that extra winning punch in many of the Riders' victories.

Chuck Stoll and Clint Greenleaf—right tackle and end respectively—played excellently both defensively and offensively. Other seniors who helped maintain this year's splendid record were Roy Schabo, Nick Ronges, and Robt. Barclay.

EICHER

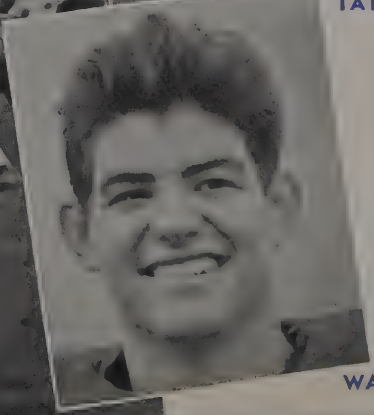
BEENEY

GERHAN

LEHTO

SVETE

TATMAN



WALTER

FOOTBALL

FORBES

RONGES

MLAKAR

SCHABO

CALLAGHAN

Sensational as a sophomore, Jack Niederhauser continued his phenomenal rise to the heights. Despite the fact that he was a marked man, Jack was consistently breaking up opponents' plays and making holes for the Case backs.

Ozzie Forbes—left tackle—was a defensive bulwark. His steady and reliable offensive blocking made the left side of the Case line invulnerable.

Pairing with Yurcheshen at the terminal posts, Bob Callaghan gave a good account of himself. Although bothered with a troublesome shoulder, he saw action in every tussle.

Chuck Mlakar—running star who was injured last year—saw very little action this year. He did break in for a few occasional minutes, but hardly long enough to strut his stuff. On the last of these rare occasions, against Baldwin-Wallace, he again disturbed the injury and was immediately taken out.

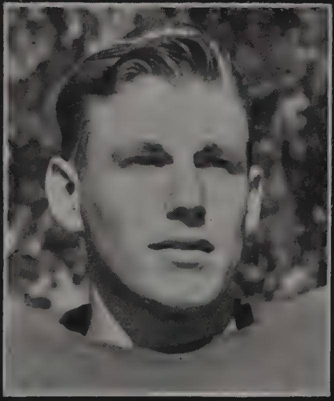
Bob Lehto—Ashtabula back—capably demonstrated his fleet footwork in the Kent State spectacle.

Wilbur Hankes—quarterback—effectively showed his aggressiveness. Being a substitute for Konker kept Hankes on the sidelines most of the time, but he picked up plenty of valuable experience and should become the hub of next year's squad.

Included in the list of juniors who gave sterling performances are Jim Beeney at center; Bernie Fobes at fullback; Custer Krickenberger and Bob Young at guard; and Art Tatman at tackle.

One of the highlights of the past season was the discovery of Bill Eicher. Eicher—whose offensive running and accurate kicking toe spelled doom for Scientist opponents—is a football natural. Great things can rightfully be expected of the Indiana (Pa.) gridster.

HANKES



KRICKENBERGER

NIEDERHAUSER

Ed Svete—center—is the first gridder in ten years of Case football history to hold down the center spot in his first year of collegiate competition. With Svete back next year, Ray Ride should have no more worries about the flipper back position.

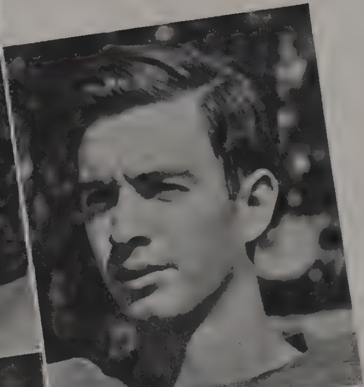
Dick Gerhan—195 pound right guard—who toughened himself by working on open hearth furnaces, was really a tough customer.

Another Walters has made his appearance on the Case grid scene. Dick Walters—brother of Ed and Gene—apparently intends to take up where his brothers left off. He has developed rapidly and will be a mainstay next year.

HEPPERT

COAN

URICH



RHOADS

YOUNG

FOBES

VAN BENEDEN

LEHIGH
33-26

Konker to Yurcheshen . . . that's the story of the Case opener. This pass combination clicked for three touchdowns and Konker connected to Copland for another. Both sides took to the air after the first period, during which Melreit plunged over for the first Case counter.

Hang onto that ball, Yurcheshen!

KENT STATE
7-6

Under the lights at Shaw Stadium the Riders annexed their second straight victory, 7-6, over Kent State's Golden Flashes, who displayed a stubborn defense . . . Bennett scored the touchdown and Melreit showed last year's form to add the margin of victory.

Melreit through the line.

WOOSTER
40-0

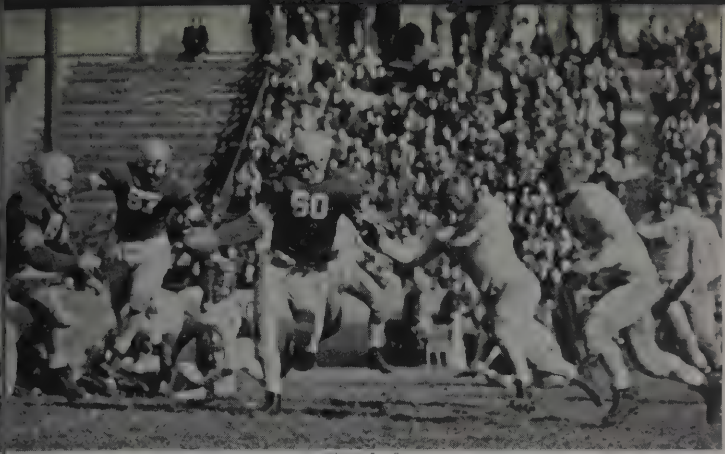
Scoring freely in all periods, the Rough Riders swamped Wooster 40-0 in the most impressive victory of the current year. Highlights of the game were an eighty-three yard touchdown sprint by Bill Eicher, and a double lateral from Konker to Melreit to Yurcheshen.

Greenleaf stops the Berean.

CARROLL
8-6

Taking advantage of the breaks, the Scientists edged out a hard-fighting Blue Streak eleven, 8-6. The two-point winning margin came late in the third quarter when the Carroll back fumbled, enabling the Casers to garner a safety . . . Melreit plunged for the touchdown.

Eicher, the hiker, around the end.



Who wants the ball? . . . not Melreit.

CARNEGIE TECH

27-0

The riders are still rough . . . the Skibos of Carnegie Tech fell, 27-0, for Casey's fifth straight victory . . . Notre Dame, two weeks earlier, under the same wet conditions scored only sixteen points against Tech . . . Melreit, Konker, and Yurcheshen accounted for the Case scores.

Bennett away, Greenleaf the blocker.

BALDWIN-WALLACE

35-7

Case downed B.W. via the air lanes before 7,500 shivering fans . . . Spark-plug Konker wound up three times, scoring bull's-eyes twice to Eicher and once to Callaghan . . . third period result, 23-7 . . . Beeney and Hankes tallied on two interceptions in the fourth quarter . . . final score, 35-7.

Lehto steps away from the big boys.

OHIO WESLEYAN

7-0

Battering, bruising football was the keynote of the afternoon as Don Taylor paved the way to victory by landing on four Wesleyan fumbles. Melreit tallied as a result of a first period drive and then booted the extra point.

Melreit gathers impetus for the impact.

RESERVE

6-26

Celebrating fifty years of gridiron rivalry, the Rough Riders tangled with the Reserve Red Cats at the Cleveland Municipal Stadium . . . weakened by a tough struggle with Wesleyan four days earlier, the Casers came out on the tail end of a 26-6 score.

SEASON SIDELIGHTS

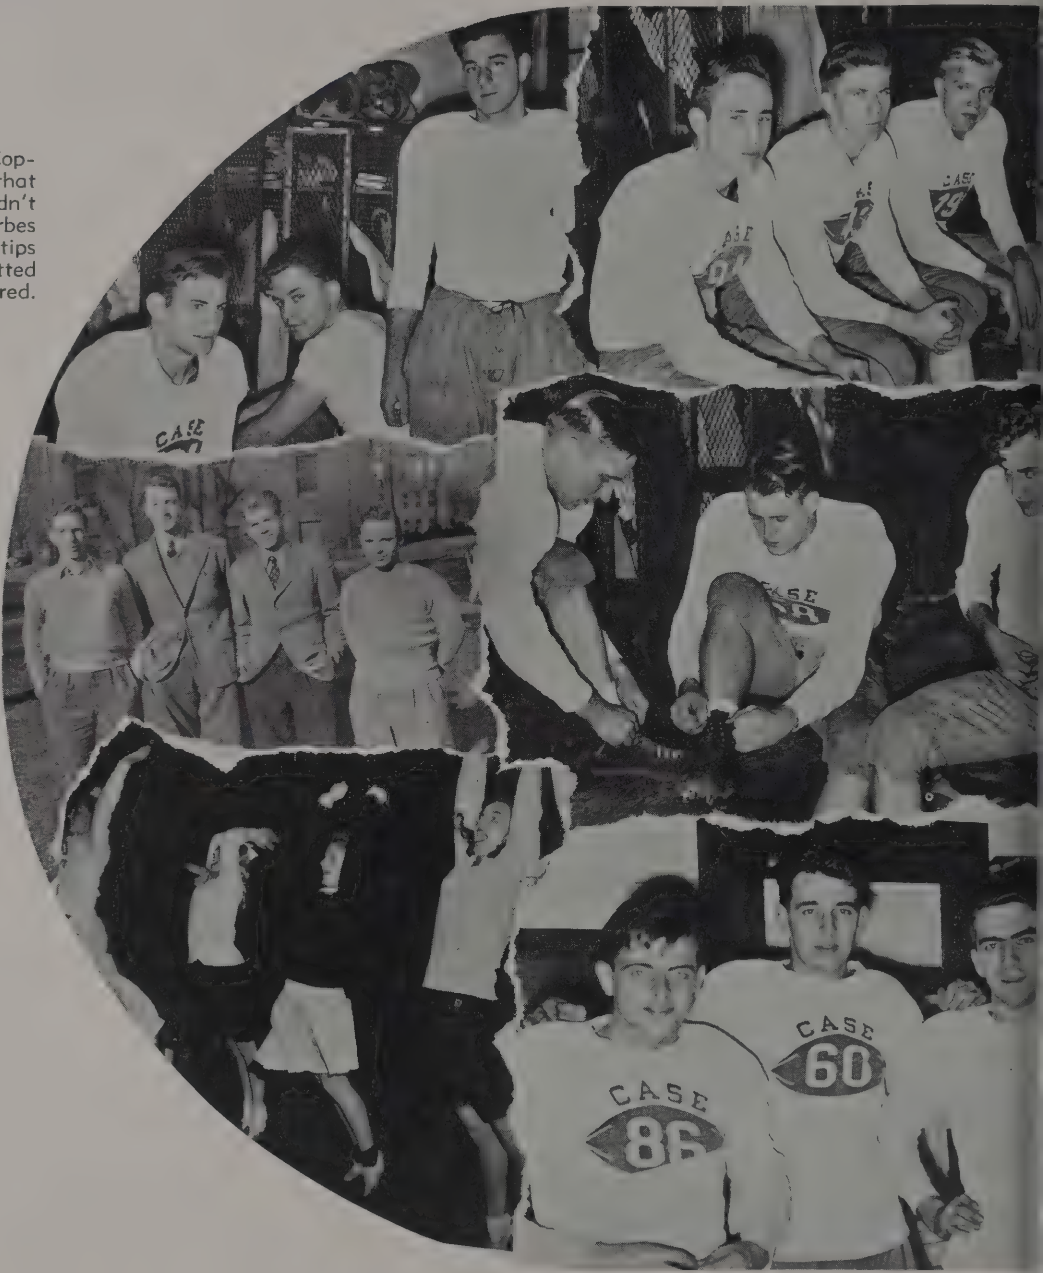
The Lehigh bound Case team found intellectuals Yurcheshen and Stoll playing bridge. The game ended in confusion with Mike chasing Charlie to the coal-tender because of a trumped ace.

Although "Bookie" Copland convinced Bennett that he knew horses, he couldn't hook the more wary Forbes and Callaghan. Irv's hot tips throughout the season netted Bennett $25 . . . in the red.

The sure - berthed, over - worked Konker and Melreit . . . first to the locker-room, fumbled for their equipment just long enough to miss calisthenics.

The boys really enjoyed the return from Lehigh via New York, where they made themselves right at home. The dance-hall girls will miss the Casites and their hotel parties.

Top left: Vitantonio, Artner, Miller.
Top right: Walter, Eichmuller, Malin.
Center left: Burdick, Schulke, Schellentrager, Kovachy.
Center right: Scherba, Baty, Manuel.
Bottom left: Nusbaum, Kirkland, Erbor, Blessing.
Bottom right: Caleb, Vermillion, Doyle.



MANAGERS

Managers . . . the unsung heroes behind the football spotlight. Hard labor, plenty of time, and patience . . . that's what it takes to be football manager. Their duties include caring for all equipment, uniforms, and preparing the field for games.

All isn't work, however . . . water fights and general brawls take place after hours in the field house.

FRESHMAN TEAM

First Row: Burnett, Jagucki, Conklin, Leary, Gorman, Tulk, Rohrer, Robbins, Dailey.

Second Row: Coach Voss, Penovich, Gurnick, Smith, Fisch, Takacs, Buerkel, Gross, Koinis, Hartman, Coach Allmen.

Third Row: Coan, Courtney, Dickson, Manos, Probost, Kratz, Landon, Mentges, Schuster.

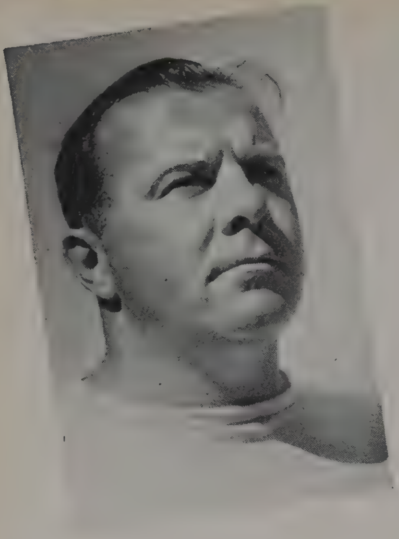
"The best freshman team in years" . . . that's what Freshman Coach, Stan Allmen said of the 1941 freshman squad. Not only were the boys good, there were plenty of them . . . a record turnout of fifty-one players started the season.

Because it was so big, the squad was divided into two sections . . . one was made up of those fellows who had played quite a bit of high school football and the other of those with less experience. They learned the fundamentals under Allmen and got real experience in scrimmage with the varsity. Each section practiced on alternate days, and then they got together once a week.

Ten of the fifty-one squad members were named on the 1940 Cleveland All-Scholastic Team and several others had played top-notch ball in high school.

Case's football success in the future depends, to a great extent, on this year's promising bunch of freshmen.

BASKETBAL



Coach Carlin

Case	50	Alumni	52
Case	34	Grove City	47
Case	44	Oberlin	45
Case	49	Ohio Wesleyan	52
Case	37	Carnegie Tech	42

Himself a twelve letter man, versatile Jeff Carlin did a remarkable job with but one returning letterman on his cage squad. Even though the season record was not too impressive, the boys worked well together and provided plenty of trouble for opponents.

Because of the accelerated program and the consequent December graduation, several juniors saw their last full season on the hardwood . . . in addition to seniors Don Taylor and Irv Copland, juniors John Keto, Bert Grow, Bruce Clarke, and Chuck Mlakar will not see action next year.

Mainstay Keto kept the boys in the running . . . Taylor, Copland, Clarke, and Grow played good ball all season.

Outstanding sophomore of the year was quiet, likeable Fred Yenny . . . closely seconded by 6′ 7″ Al Baietti who could actually jump up and drop the ball into the basket. Yenny, Baietti, and Ralph Reiner will form the nucleus of next season's quintet.

Left to right: Heinmiller, Beeney, Taylor, Gildemeister, Clarke, Keto, Baietti.

Case....52	Reserve 51
Case....35	Carroll 54
Case....39	Muskingum 53
Case....39	Wooster 49

Case....34	B-W..................49
Case....52	Carroll 60
Case....36	B-W..................43
Case....50	Reserve 52

Realizing that his squad was young and inexperienced, Jeff Carlin told his boys to play their best but also to have a good time . . . they did. Jeff, his usual jovial self refused to give Chuck Mlakar a mythical five bucks for the second B-W game . . . he said Chuck owed him two instead.

Freshman basketball . . . proving ground for the up and coming frosh. Stan Allman — freshman coach — taught them the ropes . . . starting this year with the fundamentals — shots, pivots, passes, and headwork. Valuable experience . . . actual playing . . . was gained by having the frosh squad scrimmage both the varsity and an alumni team.

Many positions—vacated by graduates—will be filled by this year's very promising freshman hoopsters. Stan Allman expects several of his boys to spark next year's team . . . all to see a lot of action.

Left to right: Schreiber, Reiner, Yenny, Mlakar, Grow, Billy, Mathews, Coach Carlin (center).

BASKETBALL

With Jeff Carlin rankled by injuries, ineligibilities and transfers, no one expected a top-notch basketball record from the stand-point of the win-lose column . . . consequently no one was disappointed at the end of the season.

Tall, husky Art Heinze left school to enter Annapolis . . . Chuck Mlakar saw action in only the first two and last three games — knee injury gotten in football—after a successful operation, he came back better than ever . . . Jim Beeney slipped below grade requirements at midsemester . . . another good man dropped out.

Jeff faced the problem of building a squad around one seasoned man — rangy, blond, sharpshooting Johnny Keto of Ashtabula . . . Mlakar, after his operation, hit his stride—20 points in the second Carroll game.

The win-lose column for the 1941-42 season makes a sad picture, but on the basis of comparative scores, however, the season doesn't appear so dreary . . . the annually strong Scots of Wooster — Ohio Conference champs — were hard pressed before rallying to win by a scant margin . . . Reserve games both were close.

Naturally, the two games with Reserve were thrillers . . . the Rough Riders took the first in a 52-51 overtime battle . . . in the second fray the Red Cats won 52-50. Both games were exciting see-saw fights. With about a minute to go in the second game, Chuck Mlakar followed Bert Grow's long shot by a still longer one from mid-floor . . . he then dribbled the length of the floor dumping in another one to knot the score. In the frenzied seconds remaining Reserve sank the one bucket necessary to take the heartbreaker.

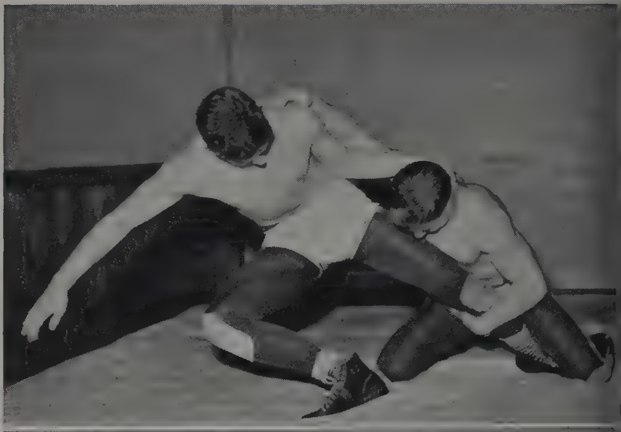
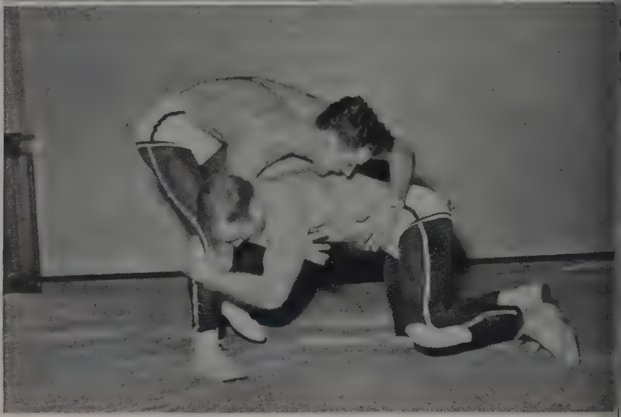
WRESTLING

Killian about to be taken down by Arant.





Klingel and Lease, stale-mated.

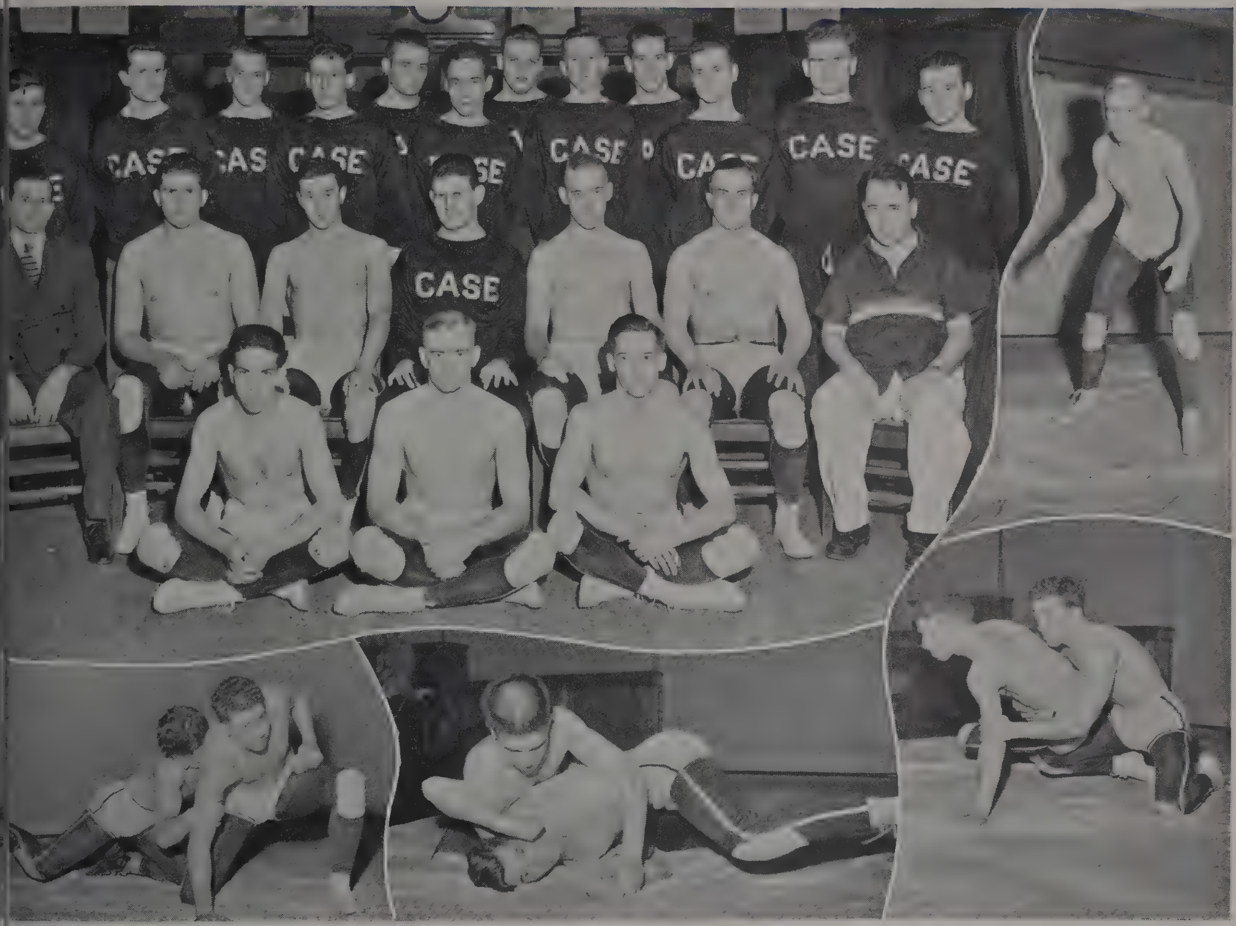
Wrestling and Florida . . . switches and swimming . . . pins and Pan American Airways — that's only a portion of what Case's matmen did and saw on their training trip to Coral Gables.

Over Christmas vacation these tough boys from "fourth floor Main" stole some of our big league ball club's thunder and combined business with pleasure—to produce a strong team, strong enough to engage and defeat a much touted Appalachian College team — previously self styled as the "Champions of the South," on the strength of their past record . . . one defeat in six years.

Just to prove that the trouncing they gave Appalachian wasn't due only to stimulus given by that good ol' Florydahh sunshine, Sharer's boys took over Rochester, Akron University, and Bowling Green, but bowed to a formidable Ohio University team . . . to make it an impressive four out of the first five meets.

The team has been led by the veteran seniors Art Klingle, 136 pounds; Bob Lease, 145 pounds; Bill Bennett, 155 pounds; "Killer" Ken Killian, 165 pounds; and Bert Arant, who wrestles in the 175 pound division. At the Interstate Meet Klingle and Lease took thirds . . . Citron and Tatman, fourths—Case placed sixth.

WRESTLING



irst Row: Citron, Lease, Cole.

econd Row: Coach Sharer, Wade, Klingel, illian, Johnson, Arant, Doc. Rees.

hird Row: Hover, Ruebensall, Jirus, Glasgow, nderson, Snow, Carter, Brown, Kazebee, AcLarty, Garman, Neel.

Left to Right

1. Wade prepares to escape from Killian.
2. Citron makes a knot out of Cole.
3. Klingel controls Citron.
4. Lease waiting for action. (top)

Killian seemed to have the toughest luck of anyone on the squad—several times after tying in the wearying, regulation period Ken went into overtime . . . coming out the victor more often than not. Among the underclassmen who have given a good accounting for themselves this year are Dave Cowan, 121 pounds; Manny Citron, 128 pounds; Dick Glasgow, 155 pounds; Dave Heppert, 175 pounds, and heavyweight Art Tatman.

Case placed sixth at the Interstate Meet

TRACK

Coach Claude Sharer's thin-clads finished the 1941 season with an impressive record. They rolled over Oberlin, Baldwin-Wallace, Akron, and Ohio Wesleyan in triangular meets, and then walloped Wooster, 83-43. A week later, they were nosed out at Ohio Wesleyan, 69-62.

They then proceeded to cop everything in sight at the Big Four meet at Berea, with Jones and Kempf grabbing a pair of firsts apiece, and Fischley, Byers, Keto, and Brewer winning at their specialties. Incidentally, Greenleaf, Harmon, Kempf, and Jones broke the Big Four record in winning the mile relay . . . in the Big Six meet at Wooster, Case placed third in a field of sixteen teams.

The harriers had a fair season this year chasing over the autumn countryside . . . one first and three seconds. In the Ohio Conference meet at Oberlin on November 15, our boys took second to an annually strong Oberlin outfit. The Brown and White played host to Bethany, Hiram, and the University of Pittsburgh, bowing only to Pitt, with Bethany third . . . Hiram fourth.

With many of the Ohio Conference teams dropping out of the fall running, the Case iron men gained valuable experience and conditioning for this season's contest on the cinder. Surprise of the season was sophomore Dick Jamison who was first among the Rough Riders in all the meets . . . Jamison's 21:24 took the Bowling Green run. Seniors Bob Kempf, Leo Klinger, and Hugh Black were also strong in the finishing mile.

SWORDS

Case 11½	Ohio State	15½
Case 10	Oberlin	7
Case 11	Cincinnati	6
Case 12	Kentucky	5
Case 15	Oberlin	12
Case 13	Illinois	14
Case 18	Northwestern	9

Case took first place in the All-Ohio Invitational Fencing Tournament at Oberlin.

Back Row: Morse, Wightman, Baer, Kominek, Barre, Weaver, Brodie, Martin, Coach Morris.

Front Row: Rowley, Quigley, Johns, Gregory, Larsen, Bowman, Voss.

Not Pictured: Brenza, Murray, Bremer, Krumhansl.

This year was the most successful the Case fencers have ever had . . . After losing the opener to powerful Ohio State due to inexperience of most of the Case fencers, Coach Lucien Morris developed a team that swamped their next four opponents . . . War affected fencing more than other sports . . . Blades made in Europe became unobtainable and there was a delay in getting American-made blades, partly due to priorities . . . Coach Morris designed blades which other schools are now clamoring for . . . Fencing continues to be the only sport in which Case meets (and beats) Big Ten teams.

SWIMMING

First Row: Trudeau, Hart, Hofstatter, Erdmann.

Second Row: James, Atwood, Kemper, Mastenbrook, Mlynko.

Third Row: Coach Kyr, Keidel, Richmond, Malin, Poffenberger, Buettell.

Paced by Bob "Fish" Keidel, the Case swimming team, under the direction of Harry Kyr, came close to last year's record despite the loss of several key men, without corresponding sophomore support . . . Plenty of credit belongs to Coach Kyr for his capable handling of limited material . . . "Wolf" Mlynko and "Timber" Trudeau campaigned vainly for an overnight trip to Oberlin or Wesleyan . . . That faraway gleam in "Cammie" Poffenberger's eye was caused by thoughts of spring afternoons in Kent . . . High light of the season was the steak dinner, courtesy of Gus Kittleburger, enthusiastic Case supporter and alumnus, who wanted to help celebrate the tight victory over Kent State . . . Low spot of every trip was Richmond's corny jokes . . . The wolves howled enviously as seniors Kamuf and Kemper always worried about getting away from out of town meets in time to see their one and only . . . Other graduation losses to next year's squad are Furrer, Mastenbrook, and James.

SWIMMING

Swimming has the brightest freshman outlook of any of Case's sports. Once before Case had a great freshman team, but grades barred most of the boys from varsity competition . . . This year things are different since all the standouts are doing well . . .

Assured of berths on next year's team are Bill Porter, 'Doc' Kuntz, Lyle Gundlach, Jack Crampton, Ted Carlton, Chet Harris, and Scott Parsons . . . The first three won state honors in several events and will form a strong nucleus for one of Case's strongest swimming squads.

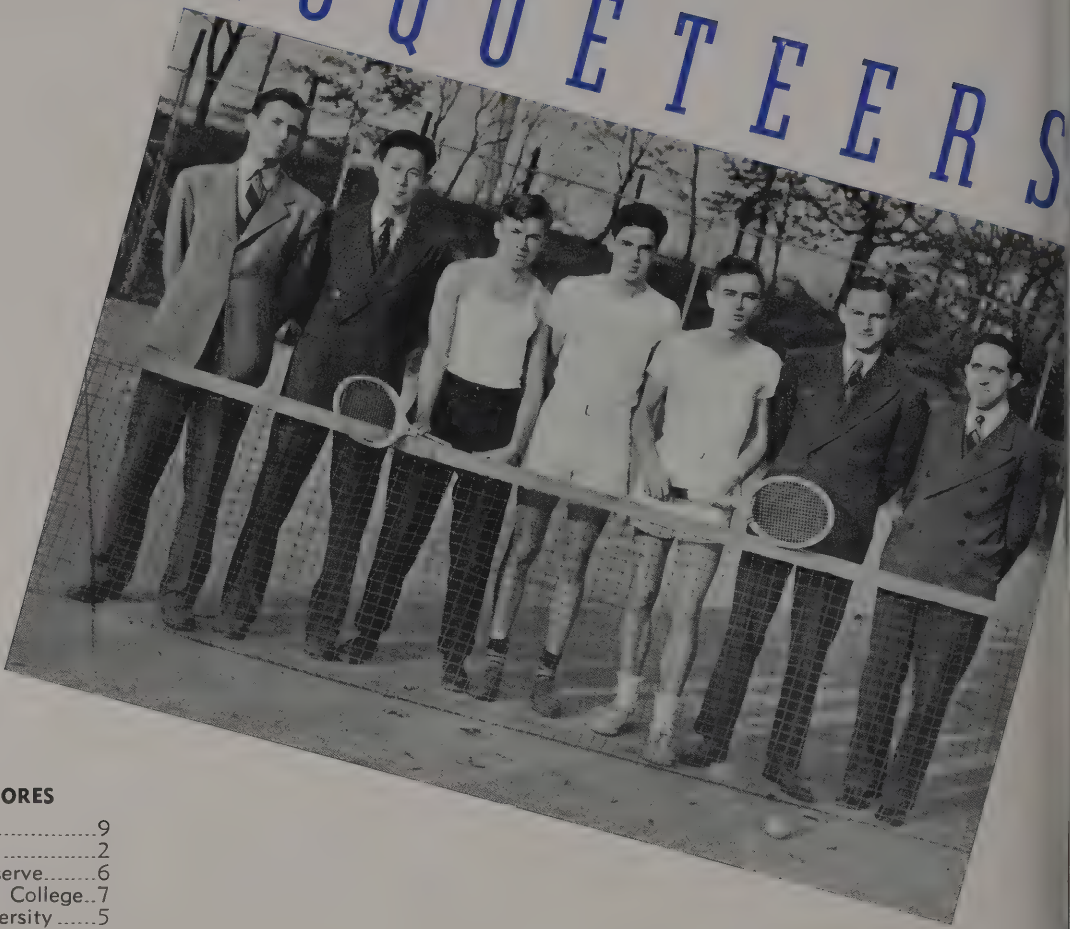
Furrer flaps his wings.

Mastenbrook relaxes.

Kemper butterflies . . . or splashes.

Keidel ready for the gun . . . don't get that hair wet, Bob.

RACQUETEERS



Murphy, Gow, Black, Clark, Vaughn, Mathers, Coach Miller.

VARSITY TENNIS SCORES

Case	0	Oberlin	9
Case	7	John Carroll	2
Case	3	Western Reserve	6
Case	2	Westminster College	7
Case	4	Toledo University	5
Case	4	Western Reserve	5

Case at Baldwin Wallace (rained out)

Tennis balls bounding through the raindrops don't make a very harmonious picture . . . in spite of exceptionally wet weather, however, Coach C. O. Miller and his tennis team completed their schedule. Tom Clark held down the number one singles spot on the team and Glenn Konker the other . . . while the Anderson brothers, Bob and Cecil, formed the number one doubles combination.

In spite of the good work of all the players, the season's results were not very imposing. They dropped their First match . . . 9-0 loss to Oberlin . . . very tough opponent . . . 7-2 victory over Carroll . . . then a 5-4 defeat at the hands of Toledo U. Reserve carried their triumph off the football field when they beat Case 5-4 and 6-3 in two matches . . . final game . . . Westminster won 7-2.

MUSCLE MEN

"Do you mean those muscle men over on the other side of the gym,"

"Why, they're members of Gamma Phi, a national honorary gymnastic fraternity."

Some of them are always here in the gym working out on the bars or mats, getting ready for the high point of the season, the Northeastern Ohio A. A. U. Meet.

First Row: Billens, Kessler.

Second Row: Schafer, Kaufman, Hankes, Scherba, Gordon, Frey.

Third Row: Burns, Fisch, Graff, Towers, Horton, Tintsman, Bodnar, Voelker.

Last year, lead by prexy Emil Scherba and Bill Billens, they gave an exhibition for Open House visitors and placed high in the district meet.

INTRAMURALS

VOLLEYBALL

Three successful years . . . three successive championships — that's the story of Phi Kappa Psi's volleyball conquest. Sweeping aside all opposition with comparative ease, the Phi Psis, led by Slater, Grow, and Long, showed real team work and cooperation. Beta Theta Pi, the only other team to show power, copped the runner-up spot.

BASKETBALL

Shattering all play-off scoring records, Phi Delta Theta roared into the interfraternity basketball championship. With Landon, Konker, Walter, and Folger hitting the hoop consistently all season, the Phis also placed first in total scoring. Second place in championship play went to Phi Kappa Psi, with Sigma Alpha Epsilon third.

WRESTLING

"The whole secret is to keep off your back" . . . this is the formula put forward by the Phi Psis, after winning the interfraternity wrestling championship from the Betas. Third place competition resulted in a tie between the Phi Delts and Zeta Psi.

SWIMMING

Seven interfraternity records broken . . . Phi Delt's power triumphs. These statements tell the story of the interfraternity swimming meet. With Porter, Carleton, and Crampton leading the way, Phi Delta Theta piled up a 26 point margin over their nearest rival, Phi Kappa Psi, who took second place, with Sigma Nu one point behind.

TRACK

For the third straight year, the Phi Delts copped the track title last May with a score of 63 points. The three-day meet on Van Horn Field in which 88 men participated yielded five new intramural records—in the 220 . . . the three-quarter mile . . . the mile relay . . . the high jump . . and the javelin throw.

BASEBALL

Power . . . punch . . . pitching, brought victory to Phi Kappa Psi in the interfraternity baseball league. Combining steady twirling by Messner with a solid attack led by Slater, Smail, Grow, and Doyle, the Stearn's Roaders outlasted their nearest competitors, Sigma Nu and Phi Delta Theta.

INTRAMURALS

Volleyball

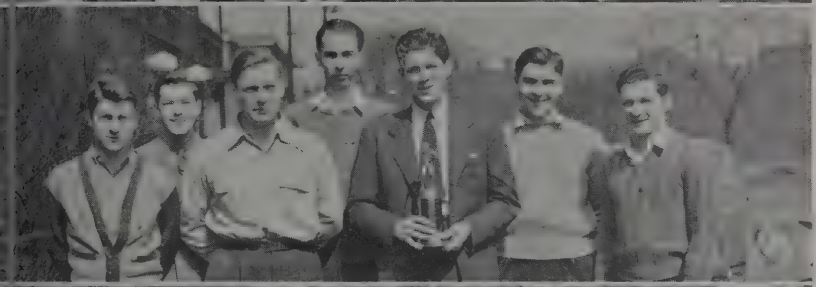
Kneeling: Smail, Grow, Slater, Tulk.

Standing: Long, Stirgwolt, McAllister, Friedman, Messner.

Basketball

First Row: Folger, Walter, Greenleaf, Konker, Landon.

Standing: Schabo, Bennett, Burdick, Rhoads, Lloyd, Stoll.



Wrestling

Cockrell, Shaeffer, Fobes, Smail, Sinnott, Gross, Francis.

Swimming

First Row: Job, Crampton, Carleton, Richey.

Standing: Bennett, Moles, Porter, Forsthoefel, Martin.

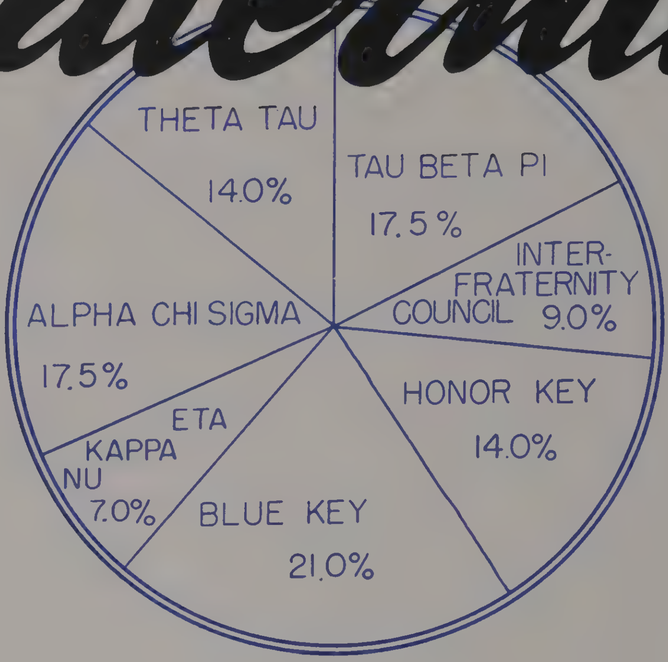
Track

Bennett, Melreit, Clarke, Gibson, Reiner, Schreiber.

Baseball

Stirgwolt, Grow, Smail, Cockrell, Slater, Sinnott, Messner.

Honorary Fraternities



Giving credit where credit is due . . . this is the chief function of Case honoraries, which represent all phases of campus life. To his fellows the Case man is known by the "hardware" of pins and keys of membership in these organizations.

C
Sherman
and
Hardy

SIGMA XI

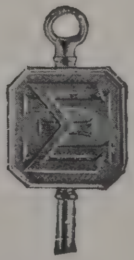
First Row: Wright, Wallace, Hoover, Hodgman, Donaldson, Vose, Hummell, Braidech.

Second Row: Shelton, Arnold, Rinehart, Olson, Eddy, Schwartz, Slaymaker, Clark.

Third Row: Mills, Altar, Brown, Turnbull, Whitacre, Cover, Coppersmith, Ebert, Espey.

Fourth Row: Torrance, Wolf, Miller, Von Fischer, Gable, Martin, Weske, Marble.

"Have to make a mighty good thesis . . . better be pretty darned original . . . Sigma Xi is no honor to be taken lightly," thinks the progressive "Senior Casite" as he starts his thesis. Why? . . . Initiation to Sigma Xi is highly coveted and attained only after graduation by those men who have shown special promise of future achievement . . . this on the basis of their senior theses.



The Case chapter of Sigma Xi . . . established in 1904 . . . was backed then by Dean Focke and Dayton C. Miller.

Case men are fortunate in having a chapter so close at hand, since it allows their work as students to be surveyed by the fraternity men on the faculty . . . this distinction is held by few other schools.

BLUE KEY

Blue Key . . . a national fraternity with eighty-two chapters all over the country bases its membership upon character . . . leadership . . . personality . . . activities . . . and scholarship. There are now about thirty members of Blue Key at Case . . . men whose prominence is displayed by the distinctive blue and gold key they are privileged to wear.

Blue Key, under its president, Ken Killian, sponsors many campus activities . . . the freshman-sophomore Bag Rush . . . freshman "education" . . . the Thanksgiving night dance after the Case-Reserve football clash . . . and a dance with a novelty theme in the spring. The Case chapter was formed in 1932 by the merging of Owl and Key with Skull and Bones. Dr. C. O. Miller is the faculty adviser.

First Row: Wright, Bressler, Nusbaum, Roth, Mlakar, Fobes, Sinnott, Mathews.

Second Row: Cole, Killian, Klingler, Doll, Miller, Greenleaf, Melreit, Copland.

Third Row: Furrer, Kempf, Newton, James, Grow, Thompson, Niederhauser.

Fourth Row: Rinehart, Cockrell, Hitchcock, Urich, Malin, Smail, McFate, Dana.

TAU BETA PI

Highest grades . . . character . . . and college activities . . . these are the requirements for Tau Beta Pi, the highest undergraduate honorary for engineering students. So strict are requirements for entrance that to be eligible for membership a junior must have an average in the upper eighth of the class . . . while seniors must be in the upper fifth. Of this group a number are chosen each year on the basis of character and breadth of service to be honored by initiation in Tau Beta Pi.

Tau Bete, as it is commonly called, is a national honorary engineering fraternity, founded at Lehigh in 1885. The key, in the shape of the bent, is recognized throughout the engineering profession. Prexy this year was Les Hertz, while Professor R. C. Putnam was faculty adviser.

Seated: Smallwood, Dana, Hitchcock, Hertz, Hudec, Nicolaisen, Poettmann.

Standing: Strough, Rapp, Klingler, Nusbaum.

THETA TAU

First Row: Rapp, Killian, Kemper, Klingler, Rowley, Leachman.

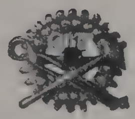
Second Row: Sowers, Toman, Hitchcock, Clark, Smail, Swartwout, Strough, Hudec.

Third Row: Dana, Smallwood, Mlynko, Greene, Rapp, Roth, Morgan, Schunemann, Hertz, Miller.

"What's that load around your neck, Buddy?" was a frequent question directed to Theta Tau pledges this semester.

"Why, this wooden gear blank is a model of the gear wheel on the Theta Tau badge . . . I am required to paint it up before initiation," was the usual answer of the pledges. "It's given to the graduating seniors then."

"But just how are you selected for membership in Theta Tau?"



"Theta Tau—a national professional honorary fraternity—selects its new members on the basis of scholarship, activities, and character. Pledges are selected each semester from the outstanding men of the junior and senior classes," explained the pledge.

"What does the organization do on the campus?" he queried.

"This year under our president, Art Dana, we have done several new things. For instance we had a swell hay ride and barn dance, and there were many dinner meetings with outstanding speakers. You see it is an honor to be elected to this group," the neophyte replied.

HONOR KEY

Nusbaum, Killian, McFate, Dana, Furrer, Kempf.

A freshman green to college came,

Noticing a small, distinctive, C-shaped gold key dangling from a senior's watch chain, the inquisitive freshman asked, "What does that stand for?"

The senior replied, "This key—the Case Honor Key—is the award given by Case to those men who distinguish themselves on the campus in extra-curricular activities as well as in their college work. It's the sign of an outstanding, hard-working, well-rounded fellow."

"But how can a student get this award?"

"Through the Case Senate . . . Case's student governing body . . . every person is given a certain number of honor points each year . . . depending upon which organizations the student is active in and the quality of his work.

"When the fellow has earned the required number of points, he is eligible for an Honor Key. The award of an Honor Key is an outstanding achievement . . . it should be a goal of every freshman."

ETA KAPPA NU

"It's for the benefit of you fellows," said Eta Kappa Nu Prexy Larry Greene as he talked up the plans for the recreation room in the electrical building . . . plans plus work and chapter money last Fall, yielded a room in which electrical students can lounge or play. In the main hall of the building can be seen another of the Eta Kappa Nu activities—a display case with a layout of constant interest. Before their real job hunt, the seniors hold practice interviews with alumni already in business.

This honorary group for junior and senior electrical students has for its purpose . . . promotion of electrical engineering ability, scholarship and activities being recognized by presentation of a handbook to the most promising sophomore electrical. Professor T. D. Owens is the faculty adviser.

Greene, Ferderber, Prof. Owens, Hertz, Burdett, Gargett, Schneeberger.

ALPHA CHI SIGMA

Not friendship in a cup . . . but rather friendship in a beaker . . . this seems the idea of the chemistry honorary, Alpha Chi Sigma. In keeping with this idea this national professional and honorary chemical fraternity strives constantly to promote chemical research and industry . . . while always building and improving friendship among its members.

On the campus, Alpha Chi Sigma commands a high degree of respect . . . both in the caliber of its members and the variety of its activities. Elections are held each year and the outstanding of the chemical majors are selected for membership.

Its many activities include dances . . . dinner meetings . . . and an award to the freshman with the highest chemistry grade. Charles Folger was the able and genial president. The adviser is now Dr. Von Fischer.

First Row: Prindle, Schow, Kempf, Redmond, Folger, Nicolaisen, Rainone, Class, Schuster.

Second Row: Workman, Marty, Bressler, Radis, Herot, Pawuk, Sinnott, Wirsch.

Third Row: Ruebensaal, Schwartz, Burhans, Visconty, Reinker, Poettmann, Weber, Woehrman, Uhrin.

INTERFRATERNITY COUNCIL

Deutsch, Thompson, Vaccaro, Dana, Buettell, Greenleaf, Martin, Woltz, Norton, Kempf.

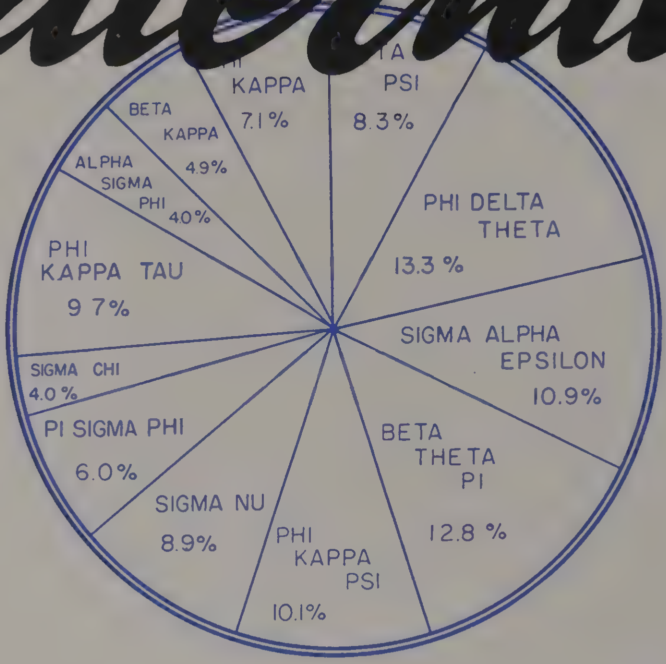
"Nighty night—" . . . the throb of twenty score engineers' hearts beating time . . . and Yvonne King . . . WOW! Alvino Rey really sent the boys at one of the best Fall Interfraternity Hops seen in these parts for a long time.

Yes sir, the Interfraternity Council, with more than half of the students behind it, ranks with the student senate as a power on the campus. When it puts on a show it really does it right! Proof? . . .

Look at the annual interfraternity spring formal during which the hotly contested, and, incidently, highly melodious, song contest is held. One man from each fraternity . . . two in the spring, when the junior representative is elected . . . make up the council.

Aside from the lighter job of throwing dances and social functions, the council publishes a booklet each year describing and presenting the fraternities to the incoming freshmen. The council keeps the fraternities on an equal competitive basis and strengthens the bonds between the school and the fraternities. It also promotes the very successful intramural sports program.

Social Fraternities



Fraternities at Case have been fortunate in receiving full cooperation and encouragement from the faculty. As a result of these favorable conditions, fraternity life is nowhere more active than here at Case. In the following pages is pictured a cross-section of fraternities at their best, stressing the personalities who make each fraternity what it is.

ZETA PSI

Under the capable leadership of Presidents "Buzz" Webb and Bob Sadler, Zeta Psi has completed a most prosperous year. The entire chapter traveled to Delaware to capture the Migration Day cup again . . . at the annual Faculty Banquet, the entire faculty feasted on one of housemother Clark's famous meals . . . the Initiation Banquet at the Shrine Club and the Christmas and Spring Formals at Acacia came off in style. Social chairmen Baty and Neel also arranged many successful alumni smokers, open houses, and other informal affairs.

In the honoraries, Zeta Psi had Klingel in Tau Beta Pi and Theta Tau . . . Panek in Theta Tau . . . and Herot, Marshall, and Nelson in Alpha Chi Sigma. Beutell was on the Board of Managers, and Baty was a member of the Case Senate. In the sports department, Krickenberger and Baty took the football honors . . . Klingel excelled in varsity wrestling . . . Beeney was out for football and basketball. Thus ended the year for the Nu chapter of Zeta Psi.

PHI DELTA THETA

Athletes . . . students . . . activity men . . . yes! Phi Delta Theta has them all. Led by "Prexy" Gibson of championship hockey fame, the chapter's life was one of harmony and activity. Outstanding footballers were Melreit, co-winner of the Les Bales award; Konker, Taylor, Stoll, Niederhauser, Greenleaf, and Bennett . . . wrestlers were Lease and Killian . . . while basketball, track, and swimming all had Phi Delt representatives. Cole is editor of this year's Differential . . . Killian, a Tau Beta Pi member was president of Blue Key . . . while Folger led Alpha Chi Sigma. A brilliant group of underclassmen give promise of carrying on the work of these outstanding campus men.

Phi Delt social life was under the guidance of Flagg, senior cheer leader . . . barn dance . . . formals . . . pledge dance . . . and parties brought many happy hours. A debt free house was the occasion for a mammoth mortgage-burning dinner-dance in October. Again the Spring Formal . . . many pins hung . . . climax of a most eventful year.

SIGMA ALPHA EPSILON

Blossoming forth last fall in their new home, the Sig Alphs worked diligently during the college year in the many branches of college life at Case. The magnificent new house was dedicated on November 1, before a crowd including the biggest names in Sigma Alpha Epsilon . . . largest of all social fraternities. Other events on the SAE's crowded social calendar included many informal house parties . . . barn dances . . . the Christmas formal at the Canterbury Country Club . . . the spring formal . . . most impressive of all, the initiation at the Cleveland Club and a formal dance.

Art Dana . . . prexy during the fall semester . . . feigned chagrin at the pledges' mock play featuring practically all of the campus honors. Art was editor of the 1941 Differential. Genial Rod Miller . . . second semester president . . . was senior hockey manager and member of the Speakers' Bureau. Others of the senior class were Ivan Greenwood, editor of the Tech . . . Bill McFate, business manager of the Tech when a junior. Equally capable SAE's in the lower classes followed in their footsteps. Bob Leachman—junior class president—holds membership in many campus honoraries. Walt Mlynko — business manager of the Differential — also showed his merit on the Swimming Team.

BETA THETA PI

Another successful year has rolled away under the leadership of President Furrer. Studies . . . activities . . . socials . . . the life of a Case Beta. Strough, president of the Math Club, had the highest grades in his class . . . Rapp was the director of the News Service . . . Ott was active in publications . . . Nusbaum, senior class president, was student editor of the Alumnus . . . all typical Beta actives. Johnson was senior track manager . . . Baird and Kempf were active in the Athletic Association. Redmond, vice-president of the senior class, collaborated with Kempf . . . result the column in the Tech, "Checkin'."

Socials, pledge dance, brawl, hayride, picnic and canoes, initiation dance, and spring formal—all will live in many memories. The Christmas formal was a huge success . . . Santa Claus . . . lights . . . presents . . . women . . . corners! Wedding bells tolled and Baird became one-half of "Mr. and Mrs." Finally came the spring breezes . . . pins were planted . . . finals came and went . . . degrees followed grades . . . with twenty-eight pledges to fill the empty chairs.

PHI KAPPA PSI

This year was a good one for the Case Phi Psis. Burhans came through with a fine pledge class . . . all of the boys entered activities and athletics. Phi Kappa Psi won the campus All-Sports cup for 1940-1941, and, after winning the volleyball competition under Captain Slater, it looks like another championship. The big surprise of 1941 was the Phi Psi victory in the interfraternity song contest . . . the boys are working hard on this year's songs under Sinnott's direction to keep the cup.

Thompson and Mathews were presidents this year. Both worked hard and produced good results. Wright was listed in this year's Collegiate Who's Who, and the brothers were well represented in campus honoraries. Schulke was senior football manager . . . James put out a lot of work as a co-chairman of the Blue Key Thanksgiving dance. Hays promoted an enjoyable Christmas dance at the Cleveland Club. After that everyone eagerly awaited the Spring party in May, which means another year is over . . . So long, '42.

SIGMA NU

It was Parker who held the reins at the Sigma Nu house this year . . . Kemper, Atwood, and Morgan were his corps of officers. A class of seventeen was pledged in the fall . . . Jewett took charge as pledge marshall. The pledge formal went over with a bang . . . plaid shirts were in vogue at the barn-dance blowout . . . the Christmas and Spring formals followed in style . . . frequent house parties were held . . . results of the fine work done by Social Chairman Malin.

Newton was chief honor man . . . membership in Tau Beta Pi, Theta Tau, and Blue Key prove his worth. Kemper, Morgan, and Schunemann were active in Theta Tau . . . Urich and Malin were Blue Key members . . . Parker, Schow, and Martin were in Alpha Chi Sigma. Varsity sports included many Sigma Nus . . . Lehto, Urich, and Malin represented the chapter in football . . . Kemper and Atwood in swimming . . . Lehto and Malin in track. Strong teams were entered in intramural competition . . . Adam sparked the attack in baseball. Pledge Kuntz showed great promise in swimming. Thus passed a memorable year for Delta Alpha chapter of Sigma Nu.

SIGMA CHI

Welding students of two rival educational institutions into an harmonious group, is the accomplishment of Beta Eta chapter of Sigma Chi. The only joint-chapter of the two campuses, Sigma Chi has a full program of dances, parties and campus activities. The Christmas and Spring formals were especially successful this year with the usual support of the chapter. Another high spot of the season was the dinner given for the National Chapter, which saw men flocking from all sections of the country to Cleveland. Pin planting has become a favorite sport of the Sigma Chis, with about ninety percent of the actives' pins adorning the fairer sex.

This year the four major officers of the chapter are Case Seniors—President Lamp is assisted by Norton, Grovemiller, and Collart. Sigma Chis in campus activities are led by Billens and Olesen, members of Gamma Phi . . . Schmitt, member of the Band and football man . . . and Ziegler, member of the Band and Debate Club. Thus the Sigma Chis are proving that a joint-chapter can be a successful one, even in the face of strong college rivalry.

PI SIGMA PHI

Unique in being the only local fraternity on the Case campus, Pi Sigma Phi has reached maturity this year—its twenty-first anniversary. Led by President Stern, the chapter has had a full social schedule, highlighted by the annual pledge and initiation dances. Sixteen pledges entered chapter activity last fall, and after midterm initiation the membership was increased to thirty-five actives. Strong teams were entered in intramural competition, upholding the Pi Sig tradition of active participation.

Frensdorf—business manager of the Tech—was joined by other Pi Sigs who were active in the Tech, News Service, and Differential staffs . . . Mensner was honored by membership in Tau Beta Pi . . . Citron made a name for himself in varsity wrestling . . . Miller played football . . . and Wheye distinguished himself in tennis. Berlin, Paris, and Oscar led the chapter's enthusiastic intramural teams.

PHI KAPPA TAU

The biggest boast of the year for the Phi Taus was their new home. Through the combined efforts of the active and alumni groups, the dreams and hopes of the chapter have come true. Hitchcock led the enthusiastic chapter as president . . . Pritchard assisted him as vice-president . . . seniors Smallwood, Hanley, Turney, McLaughlin, Black, and Hover actively supported the chapter. Strong teams were put on the floor for all activities by Chairman Kessler, while Hanley arranged a program which raised the social life of the chapter to a new peak.

Well represented in campus honoraries, was Phi Kappa Tau . . . Hitchcock and Smallwood listed Tau Beta Pi and Theta Tau among their many activities . . . Kessler and Wischmeyer were elected to Theta Tau . . . Haig, Schurr, and Pracejus were active in Gamma Phi. Since its founding in 1925, the Alpha Delta chapter of Phi Kappa Tau has risen to the position of a top ranking fraternity on the Case campus.

BETA KAPPA

Fifteen pledges swelled the ranks of Beta Kappa as the 1941-42 semester marked a banner year for the fraternity. A special highlight of the year was the chapter's acting as host for the Central Province Conclave of Beta Kappa, but this did not interfere with the usual active social season. A full schedule was maintained . . . hayrides . . . informal house dances . . . and a most successful Christmas Formal. Intramural competition saw much action from the Beta Kappas, especially in bowling in which many of the individual scores zoomed over the two-hundred mark.

Kovachy was president of the chapter this year. Radis—varsity wrestling star—led a bevy of Beta Kappas into the wrestling room . . . Baietti made good use of his six feet and seven inches as he rang up his share of points for Case's basketball team . . . Kamuf represented the chapter on the swimming team with his diving skill . . . many of the brothers found pleasure in the Glee Club. All these show the versatility of the chapter in campus activity.

PHI KAPPA

This year a new name has been added to the list of national fraternities on the Case campus, that of Phi Kappa. This group grew in strength from its founding in 1932 as Theta Psi Kappa—a local fraternity for Catholic students—until it joined the ranks of the national organization as Alpha Beta chapter. Add to this new status the new house into which the chapter moved last summer, and the largest pledge class in the group's history, and you have a combination which is bound to grow with red-letter days, assuring the Phi Kappas many enjoyable times.

Led by President Vaccaro—famed for his many activities, some of which are direction of Case athletic publicity, intramural managing, and being Secretary-Treasurer of the Case Senate—many Phi Kappas were engaged in campus activity. Seniors Frey and O'Rourke participated in track and cross-country . . . Bremer, Krumhansl, and Schaefer were active in fencing . . . Barletta, Fisch, Gurnick, and Nemecek played freshman football . . . Pavilonis excelled in the Speakers' Bureau . . . and others were on the Differential and Tech staff and in the Glee Club.

FINAL REPORT

ON CASE

Included in these lines is the swan song of the men of '42 . . . of their four years here . . . of their hopes and ambitions . . . of their troubles and successes.

We first met as the boys in the brown caps . . . freshman lab . . . Blue Key with paddles, songs, yells . . . lost the bag rush (sophomore treachery) . . . first finals, first flunks . . . class president K. V. Killian . . . fraternity initiations . . . activities . . . potential athletes . . . freshman camp . . . these were a good start toward outstanding as . . .

Sophomores . . . our "Big Mike" Yurcheshen . . . good from the first whistle . . . won the bag rush (sophomore treachery) . . . physics, calculus, and other required subjects! . . . books, notes, and slide rules . . . all of which contributed to our move to the rank of . . .

Juniors . . . reports . . . more reports . . . Konker, Melreit, Mike coming on as football players . . . Dana and Furrer talking over the Differential . . . Greenwood and his Case Tech . . . class prexy Nusbaum . . . "Smarty" Bob Strough . . . "Hockiest" "Hoot" Gibson . . . then 196 of "the boys" went on to be stately . . .

AND THE CLASS OF '42

Seniors of distinction, intelligence, integrity, perseverance . . . all Ohio Yurchesen and Melreit . . . football captain Taylor . . . officers Nusbaum, Herot, and Redmond . . . Blue Key prexy Killian . . . intramural-manager Thompson . . . plenty of representation in Tau Bete, Sigma Xi, Eta Kappa Nu, Theta Tau, Alpha Chi Sigma . . .

"Checkin' " with Kempf and Redmond . . . Tau Bete prexy Les Hertz . . . Interfrat prexy Dana . . . Senate president Furrer . . . thesis . . . fraternity parties . . . national defense . . . japs . . . U. S. N. R. ensigns . . . and jobs.

All of these things . . . unforgettable . . . the process of education, culture, and experience . . . nothing is missing . . . a well-rounded outfit . . . they're all there . . . all this and '42.

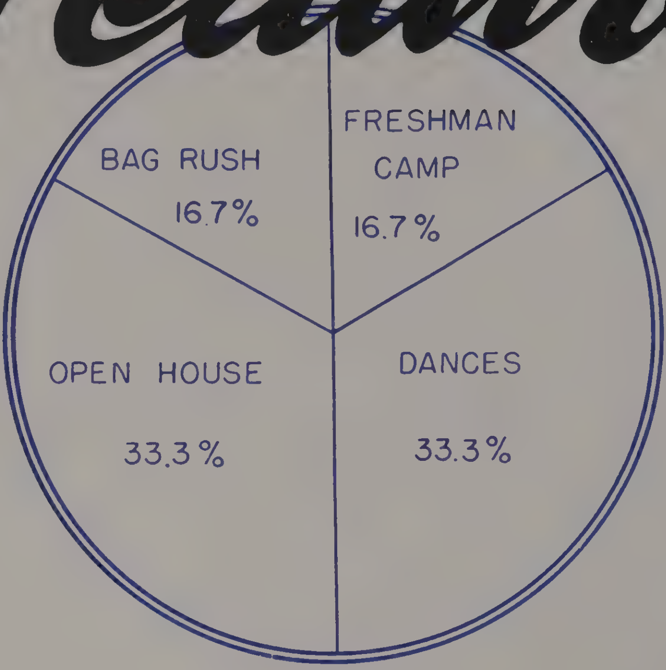
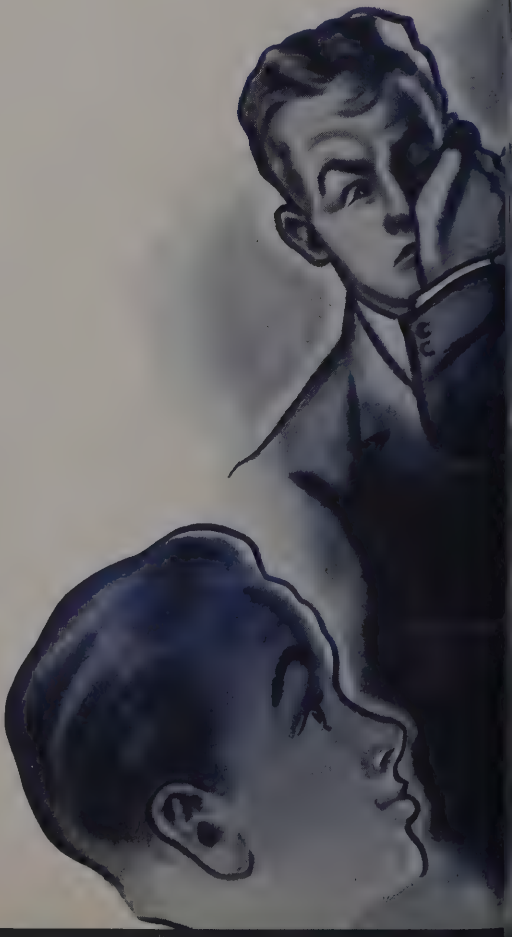
Features



As the class of '42 takes its place in the world, fond memories of the lighter moments of their college life accompany them. Their first bag rush, freshman camp, and the many pleasant dances all will be relived many times in the years to come.



Sherman
and
Hardy

JUNIOR PROM

"Hi de hi de ho" . . . "Minnie th' Moocher" . . . Calloway's jive kept us jumpin' from 10 to 2.

Eddie Wright, dance chairman, beamed from behind a wall of starched shirt front as he handed out those swell favors to the best looking dates in town.

A beautiful spring night . . . Hotel Cleveland . . . Romance ran rampant at the Prom of the seniors of '42.

Too bad that the defense effort cuts out the prom for this year, but there are bigger things to do.

OPEN HOUSE

"What's this—an invasion of the Case Campus?"

"Yes indeed . . . by prospective students and all persons interested in what goes on in our labs and classrooms. Don't let that army scout-car deceive you . . . it's just there to symbolize Case's part in the National Defense program."

Dave Nusbaum—student head of Open House—had everything going smoothly with all the students and faculty doing their part.

"Our annual open house was very successful in keeping Case before the public and making our contribution to defense more widely known."—Dr. Wickenden.

POST GAME DANCES

Once in a while the boys of Case climb up out of the salt mines and break loose at a dance . . . among the better ones are those put on by Blue Key and the Board of Managers.

Blue Key's Thanksgiving dance at the Statler . . . pleasant aftermath of the game . . . big crowd . . . not even ankle room . . . Case and Reserve yells . . . and Vince Pattie furnished the music.

The Board of Managers put on two dances (after the football and basketball games) . . . at the Cleveland Club with Music by Willard and Dalton . . . thoroughly enjoyed by all. These dances form an integral part of Case social life.

INTERFRATERNITY HOP

Stiff shirts and tails . . . Casey dolls up. The Interfraternity dance—climax of Case's social season—featured the rhythms of Alvino Rey and the four King Sisters at Hotel Statler.

Dateless P. R. Heinmiller crowned himself with fame . . . he came formally attired . . . yeh, a broad-shouldered sport coat.

High spots of the evening—the band's comical take-off on Grand Opera . . . Yvonne King's rendition of "Nighty Night."

At the Spring Interfrat, each fraternity—after week of tuning up—sang in their best voice . . . the Phi Psis won the cup again this year.

BAG RUSH

"We need all the bags; let's get them!" . . . so saying, "Big John" Manos led his freshman horde against the sophomores in the annual bag rush. Behind their leader to the last shred of modesty, the frosh unleashed the usual attack of fruit (slightly overripe) and eggs (slightly aged). The overpowered but valiant sophs returned egg for egg and blow for blow—but to little avail—as the freshmen emerged with every bag . . . the first success for the class of '45.

Contact!

Dead horse graveyard.

Going nowhere in a hurry.

All hands on deck!

FRESHMAN EDUCATION

To "educate" freshmen for their further life at Case, Blue Key offers a compulsory intensive course in "Conduct and Attitude Becoming a Freshman". In addition to learning the Case yells and songs, the freshmen participate in "fire" drills, strength and endurance contests, and periodic excursions to the hallowed halls of Mather.

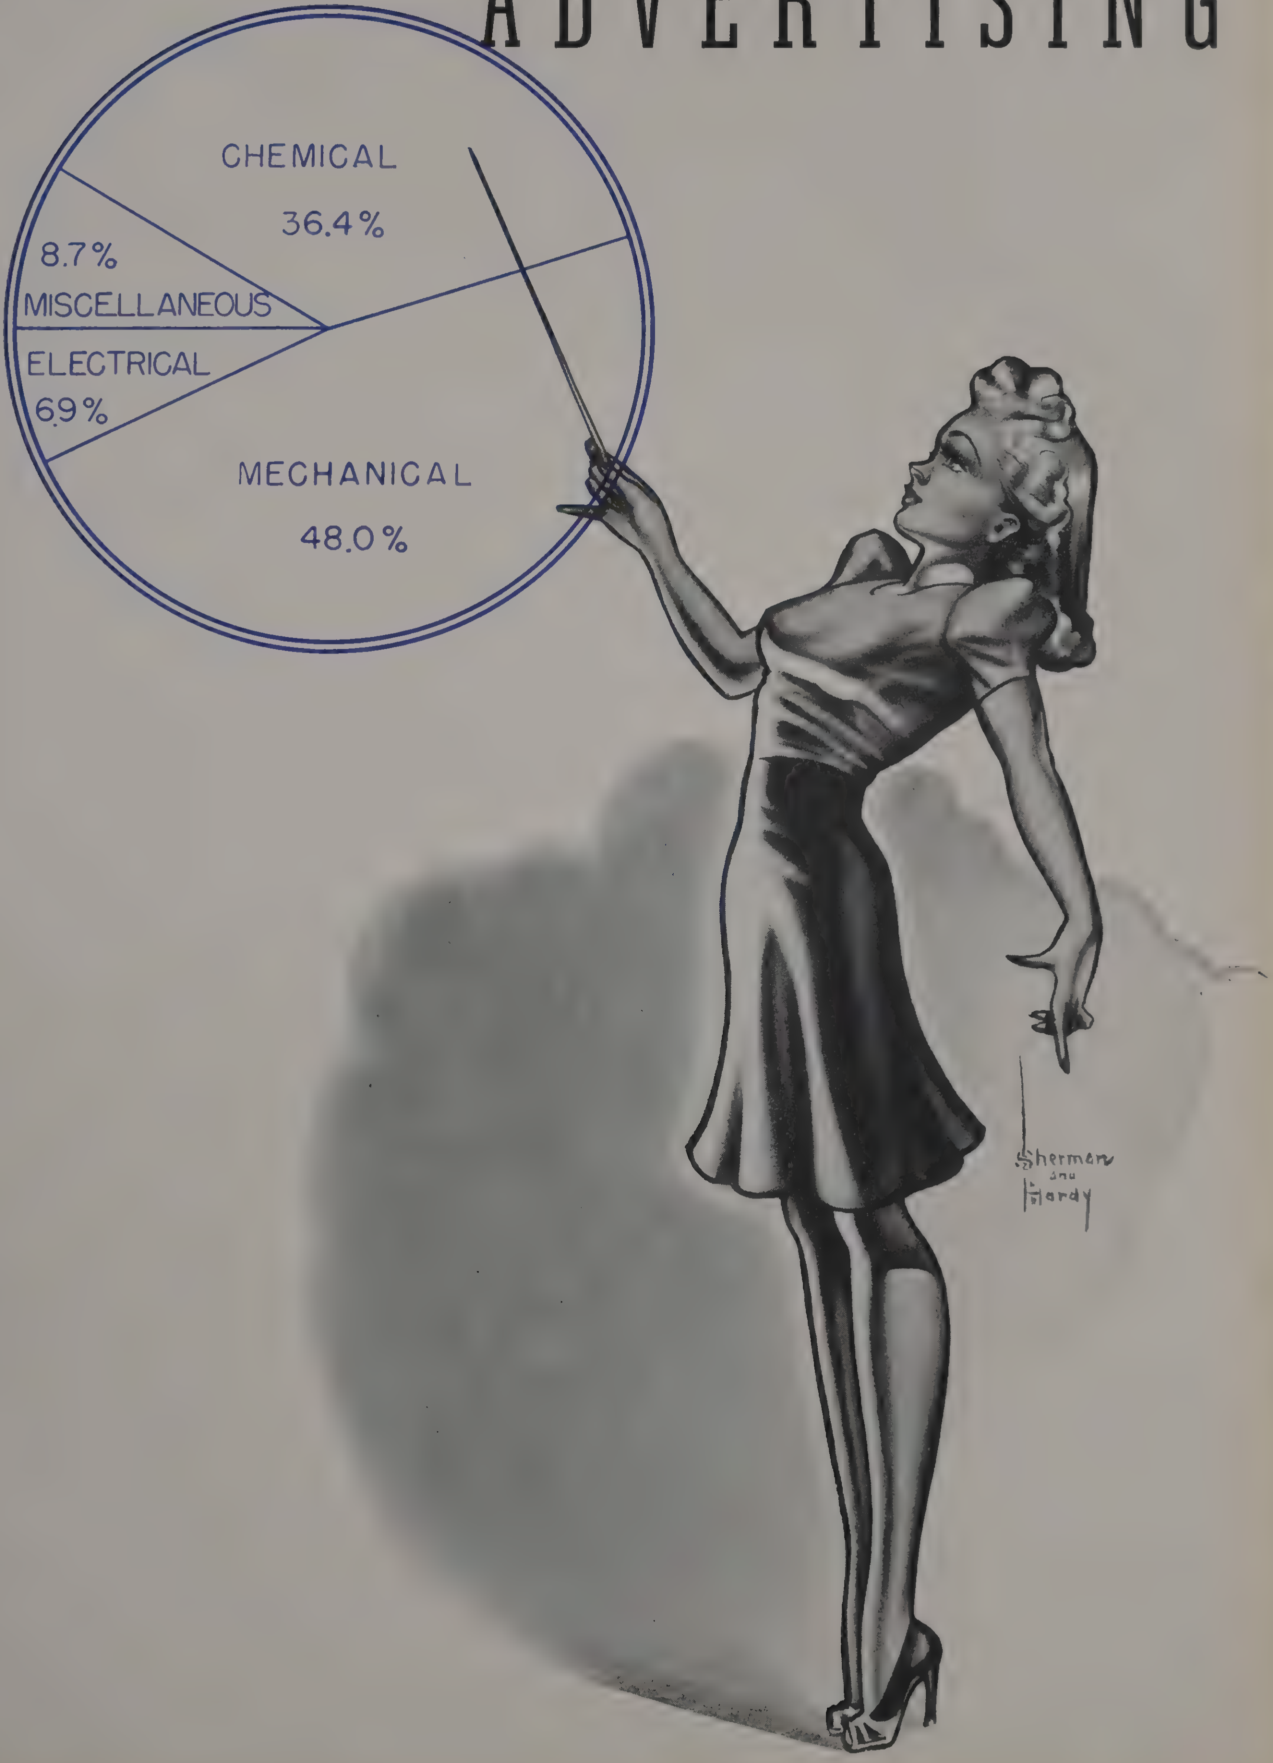
FRESHMAN CAMP

Spring camp started off with a bang . . . mud, rain, and slosh for five days . . . and no field work! By the end of the second week everyone was taking his shower out of a bucket because the well ran dry. The experts (professors) held a pow-wow . . . decided to lay a pipe line and pump water up to the shower house from the valley. Class of '44 turned into plumbers.

"Howdy, Straight Shooters" Baty engineered a dance at the lodge . . . freshmen went into the importing business to bring their dates . . . wolf pack on the loose.

Loudonville proved disappointing to most of the boys . . . amusements were few and far between . . . **good** dates hard to get . . . seven-mile tramp to town wasn't worth the exertion.

ADVERTISING



Care for your Car . . .
for your Country

The way you, and millions of American motorists, are responding to this appeal is a tribute to your high patriotism.

It is also convincing testimony to the level-headed foresight and the ingenuity of America—and Americans.

We're discovering there are a great many things we can do to lengthen the life of our cars, to conserve vital materials.

The Ohio Oil Company and its Marathon dealers are proud to be doing their part—with you—in this job for our country.

LAKESIDE

YOU CAN RELY ON LAKESIDE

WHEN perfect heat treating means the difference between acceptance and rejection . . . when faster flame hardening helps fill government contracts on time . . . when any job of steel improvement must be done with utmost speed and precision . . . you can, indeed, rely on Lakeside.

We've put a lot into this new plant of ours—the most modern gas furnaces to handle light or heavy work and bars up to 22 feet long, furnaces completely automatically controlled, flame hardening machines of our own design, and the most efficient nitriding, Chapmanizing, cyaniding and sand blasting equipment available.

Today we have more than 66,000 square feet of factory space, equipped with trucking and loading facilities which afford seven entries to the plant. New overhead equipment speeds your work to and from each process, and assures safe handling of every order.

INDIANAPOLIS ENGRAVING COMPANY, INC

INDECO GUIDES TO BETTER ANNUALS

STABILITY

Since the turn of the century the Indianapolis Engraving Company, Inc., has maintained the highest standards of quality and intelligent cooperation, thus accounting for the continuous use of our service by many high schools, colleges and universities.

QUALITY

Indeco quality is the finest that modern equipment and skilled craftsmen can produce. Every engraving is unconditionally guaranteed to be a perfect printing plate and to give a faithful reproduction of your engraving copy.

SPECIALIZATION

Our service includes help in planning and designing, suggestions on how to get the best pictorial effects, assistance in preparation of engraving copy, and solving the many problems arising in making your book both an editorial and financial success.

IDEAS

The latest ideas in yearbook construction are offered to make the annual best meet the requirements of your particular school. Our "Service Manual" is a complete guide for the staff in their work.

RESULTS

Indeco planned yearbooks have long been recognized as being among the outstanding annuals of the country. You will be agreeably surprised, too, at the purchasing power of your budget. Write us asking for a complete explanation of the Indeco plan.

She stepped out of the tub
All nude and bare and bold
But it didn't interest me
She was only two years old.

A small boy was asked by his father, a well-known contractor, what he would like for Christmas.

"A baby sister," replied the boy.

"But it's only two weeks to Christmas and that doesn't leave much time," said his father.

"I know, father," answered the child, "but can't you put more men on the job?"

THE CASE DIFFERENTIAL
FOR 1942

Ike had been presented with a flask of rare old Scotch whiskey. He was walking briskly along the road when along came a car which he did not sidestep quite in time. It threw him down and hurt him badly. He got up and limped down the road. Suddenly he noticed that something warm and wet was trickling down his leg. "Oh, Lord," he groaned, "I hope that's blood!"
